Handling the mains plug and lead

- Insert the mains plug fully into the socket outlet. (If the mains plug is loose, it could generate heat and cause fire.)
- Ensure that the mains plug is easily accessible.
- Do not touch the mains plug with a wet hand. (This may cause electrical shock.)
- Do not damage the mains lead. (A damaged lead may cause fire or electrical shock.)
- Do not move the TV with the lead plugged in the socket outlet.
- Do not place a heavy object on the lead or place the lead near a high-temperature object.
- Do not twist the lead, bend it excessively, or stretch it.
- Do not pull on the lead. Hold onto the mains plug body when disconnecting the lead.
- Do not use a damaged mains plug or socket outlet.

If you find any abnormality, remove the mains plug immediately!

AC Auto 110-240 V, 50 / 60 Hz

* Mains plug types vary between countries.

Power source / Installation

- This TV is designed for:
  - AC Auto 110 - 240 V, 50 / 60 Hz
  - Table top use

Do not insert foreign objects into the TV

- Do not allow any objects to drop into the TV through the air vents. (Fire or electrical shock may result.)

Do not remove covers and NEVER modify the TV yourself

- Do not remove the rear cover as live parts are accessible when it is removed. There are no user serviceable parts inside. (High-voltage components may cause serious electrical shock.)
- Have the TV checked, adjusted, or repaired at your local Panasonic dealer.

Do not expose to rain or excessive moisture

- To prevent damage which might result in electric shock or fire, do not expose this TV to rain or excessive moisture. This TV must not be exposed to dripping or splashing water and objects filled with liquid, such as vases, must not be placed on top of or above the TV.

Use only the dedicated pedestals / mounting equipment

- Using an unapproved pedestal or other fixtures may make the TV unstable, risking injury. Be sure to ask your local Panasonic dealer to perform setup.
- Use approved pedestals (p. 6) / wall-hanging brackets (p. 6).

Do not expose to direct sunlight and other sources of heat

- Avoid exposing the TV to direct sunlight and other sources of heat.

To prevent the spread of fire, keep candles or other open flames away from this product at all times

Do not allow children to handle SD Card

- As with any small object, SD Cards can be swallowed by young children. Please remove SD Card immediately after use and store out of reach of children.
Caution

This appliance is intended for use in tropical climates

When cleaning the TV, remove the mains plug

● Cleaning an energised TV may cause electrical shock.

When the TV is not going to be used for a long period of time, remove the mains plug

● This TV will still consume some power even in the Off mode, as long as the mains plug is still connected to a live socket outlet.

Allow sufficient space around the TV for radiated heat

Minimum distance

- When using the pedestal, keep the space between the bottom of the TV and the surface where the TV is set.
- If using a Wall-hanging bracket, refer to its manual.

Do not block the rear air vents

● Blocked ventilation by newspapers, table cloths, curtains, etc. may cause overheating, fire or electrical shock.

Do not apply strong force or impact to the display panel

● This may cause damage resulting in injury.

Do not expose your ears to excessive volume from the headphones

● Irreversible damage can be caused.

Notes

Auto power standby function

● The TV will automatically go to Standby mode in the following conditions:
  ● no signal is received and no operation is performed for 30 minutes in TV mode
  ● [Off Timer] is active in the Setup Menu (p. 13)
  ● no operation is performed for the period selected in [Auto Standby] (p. 26)

Keep the TV away from these types of equipment

● Electronic equipment
  In particular, do not place video equipment near the TV. Electromagnetic interference may distort images / sound.

● Equipment with an infrared sensor
  This TV also emits infrared rays. This may affect operation of other equipment.

Transport only in upright position
Accessories / Options

Standard accessories

Remote Control
- N2QAYB000602

Batteries for the Remote Control (2)
- R6 (AA)

Pedestal
- (p. 7)

Pedestal hole cover sheet
(Not applicable for TH-L32C3M)

Accessories / Options

Operating Instructions

- This product contains possibly dangerous parts (such as plastic bags), which can be breathed in or swallowed by young children accidentally. Keep these parts out of reach of young children.

Optional accessories

Please contact your nearest Panasonic dealer to purchase the recommended optional accessories. For additional details, please refer to the manual of the optional accessories.

Wall-hanging bracket
- TY-WK3L2RW
  The angle of wall-hanging bracket can be adjusted in “zero tilting (vertical)” and “5 or 10-degree tilting” for this TV.

Rear of the TV

Warning

- Using other wall-hanging brackets, or installing a wall-hanging bracket by yourself pose the risk of personal injury and product damage. In order to maintain the unit’s performance and safety, be absolutely sure to ask your dealer or a licensed contractor to secure the wall-hanging brackets. Any damage caused by installing without a qualified installer will void your warranty.
- Do not mount the unit directly below ceiling lights (such as spotlights, floodlights or halogen lights) which typically give off high heat. Doing so may warp or damage plastic cabinet parts.
- Take care when fixing wall brackets to the wall. Always ensure that there are no electrical cables or pipes in the wall before hanging bracket.
- To prevent fall and injury, remove the TV from its fixed wall position when it is no longer in use.
Installing the pedestal hole cover sheet (Not applicable for TH-L32C3M)

You need to install the pedestal hole cover sheet only if you opt to mount your TV on the wall.
1. Slide the cover sheet into the pedestal hole area until it locks into place (follow the arrows as shown in Figure A).
2. The final condition after installation is shown in Figure B.

Make sure the cover sheet has covered all area of the pedestal hole.

Attaching the pedestal

Warning
Do not disassemble or modify the pedestal.
● Otherwise the TV may fall over and become damaged, and personal injury may result.

Caution
Do not use any pedestal other than that provided with this TV.
● Otherwise the TV or the display may fall over and become damaged, and personal injury may result.
Do not use the pedestal if it becomes warped or physically damaged.
● If you use the pedestal while it is physically damaged, personal injury may result. Contact your nearest Panasonic dealer immediately.
During set-up, make sure that all screws are securely tightened.
● If insufficient care is taken to ensure screws are properly tightened during assembly, the pedestal will not be strong enough to support the TV, and it might fall over and become damaged, and personal injury may result.
Ensure that the TV does not fall over.
● If the TV is knocked or children climb onto the pedestal with the TV installed, the TV may fall over and personal injury may result.
Two or more people are required to install and remove the TV.
● If two or more people are not present, the TV may be dropped, and personal injury may result.

Assembling the pedestal

Use the assembly screws A to fasten the bracket C to the base D securely.
● Make sure that the screws are securely tightened.
● Forcing the assembly screws the wrong way will strip the threads.

Securing the TV

Insert the bracket into the TV, and then fasten securely with the assembly screws B.
● Tighten the four assembly screws loosely at first, then tighten them firmly to fix securely.
Inserting and removing remote’s batteries

1. Open

2. Close

Note the correct polarity (+ or −)

Caution
- Incorrect installation may cause battery leakage and corrosion, resulting in damage to the remote control.
- Do not mix old and new batteries.
- Do not mix different battery types (such as alkaline and manganese batteries).
- Do not use rechargeable (Ni-Cd) batteries.
- Do not burn or breakup batteries.
- Batteries must not be exposed to excessive heat such as sunshine, fire or the like.
- Do not disassemble or modify the remote control.

Decimal
Basic Connection

External equipment and cables shown are not supplied with this TV. Please ensure that the unit is disconnected from the mains socket before attaching or disconnecting any leads.

Note

- Keep some space between the TV and RF cable to prevent distorted image.
- Do not put the RF cable close to the mains lead to avoid noise.
- Do not place the RF cable under the TV.
- To obtain optimum picture and sound quality, an aerial, the correct cable (75 Ω coaxial) and the correct terminating plug are required.
- If a communal aerial system is used, you may need the correct connection cable and plug between the wall aerial socket and the TV.
- Your local Television Service Centre or dealer may be able to assist you in obtaining the correct aerial system for your area and the accessories required.
- Any matters regarding aerial installation, upgrading of existing systems or accessories required, and the costs incurred, are the responsibility of you, the Customer.
- VIERA Link connection (p. 41)
- Other equipment connection (p. 47 - 49)
- Read the manual of the equipment, too.
Identifying Controls

1 USB port
2 SD Card slot
3 AV3 terminals
4 Headphones jack
5 Remote control signal receiver
   ● Do not place any objects between the TV remote control signal receiver and remote control.
6 C.A.T.S. (Contrast Automatic Tracking System) sensor
   ● Senses brightness to adjust picture quality when [Eco Mode] in the Picture Menu is set to [On] (p. 21)
7 Power LED
   ● Red: Standby
     Green: On
     When using the remote control, indicates the TV has received a command.
8 Function select
   ● [Bass] / [Treble] is displayed only when [Mode] in the Sound Menu is set to [Music] or [Speech] (p. 23)
9 Channel Up / Down, adjusts settings (when using the F button), switches the TV On (press either button for about 1 second when in Standby mode)
10 Changes the input mode
11 Mains power On / Off switch
   ● Use to switch the TV mains power On / Off. If you turn your TV to Standby mode with the remote control (p. 11), and then turn off the TV mains power, the TV will be in Standby mode when you next turn on the mains power.

About the Operation Guide - On-screen Displays

The operation Guide is displayed at the bottom of the On-screen Display. The buttons for operations and the manner of operations are displayed.

Example: [Sound Menu]
Identifying Controls

Remote Control

1 On / Standby switch
- Switches TV On or sets it to standby

2 Sound Selection
- Selects sound output mode during multiplex broadcast ⇒ (p. 53)

3 [Main Menu] ⇒ (p. 20)
- Press to access Picture, Sound and Setup Menus

4 Information ⇒ (p. 14)
- Displays channel and programme information

5 VIERA TOOLS ⇒ (p. 19)
- Displays special feature icons for easy access

6 [VIỆRA Link Menu] ⇒ (p. 43)
- Accesses VIỆRA Link Menu

7 OK
- Confirms selections and choices
- Press after selecting channel positions to quickly change programme

8 [Option Menu] ⇒ (p. 14)
- Quick access to optional settings for picture, sound, etc.

9 Teletext ⇒ (p. 16)
- Switches to teletext mode

10 Favourite page
- Displays your favourite teletext page (p. 16)

11 Numeric buttons
- Changes channel and teletext pages
- When in Standby mode, switches TV On

12 Sound Mute
- Switches sound mute On or Off

13 Volume Up / Down

14 Input mode selection
- PC - switches to PC input mode
- TV - switches to TV mode ⇒ (p. 13)
- AV - switches to AV input mode from Input Selection list ⇒ (p. 18)

15 Aspect ⇒ (p. 15)
- Changes aspect ratio

16 Surround ⇒ (p. 23)
- Switches surround sound setting

17 Exit
- Returns to the normal viewing screen

18 [Media Player] ⇒ (p. 32)
- Switches to SD Card and USB device viewing / listening mode

19 Cursor buttons
- Makes selections and adjustments

20 Return
- Returns to the previous menu / page

21 Coloured buttons
- Used for selection, navigation and operation of various functions

22 Hold
- Freeze / unfreeze picture ⇒ (p. 13)
- Holds the current teletext page (teletext mode) ⇒ (p. 16)

23 Index ⇒ (p. 16)
- Returns to the teletext index page (teletext mode)

24 Last View ⇒ (p. 14)
- Switches to previously viewed channel or input mode

25 Channel Up / Down
- Selects channel in sequence
Auto Tuning

Search and store TV channels automatically.
* These steps are not necessary if the setup has been completed by your local dealer.

1. Plug the TV into mains socket and switch On
   ● You can now use the remote control to turn On the TV or switch the TV to Standby mode. (Power LED: On)

2. Select your language
   - OSD Language
   - ① select
   - ② set

3. Select your area
   - Channel Plan
   - Asia/W.Europe
   - CIS/E.Europe
   - China
   - Hong Kong
   - NZ/Indonesia
   - CATV/Other
   - Auto Tuning starts
     - Auto Tuning will start to search for TV channels and store them. The sorted channel order depends upon the TV signal, the broadcasting system and reception conditions.

4. Select [Home]
   - Please select your viewing environment.
   - Home
   - Shop
   - ① select
   - ② confirm

*Viewing environment mode
- [Home]: Recommended mode for viewing at home. Select [Home] for optimal picture / power consumption. [Viewing Mode] is set as [Normal] (p. 21).
- [Shop]: Demonstration mode to explain the main features of this TV (for in-store display). [Viewing Mode] is set as [Dynamic] (p. 21).

To return to viewing environment selection mode if you have selected [Shop]

* To change viewing environment mode later on, reset all settings by accessing Shipping Condition. ⇒ [Shipping Condition] (p. 31)
Watching TV

Turn on the TV
● Mains power On / Off switch should be On (p. 10).

Select TV mode
TV

Select a channel
- If one or two-digit channel number, e.g. 39
- (quickly changes the channel)

Note
● When the TV is switched to standby, there will be a clicking sound after a short delay. This is normal.

Other useful functions

Hold

Freeze / unfreeze picture

Off Timer

Turn the TV off automatically after a fixed period of time [Off / 15 / 30 / 45 / 60 / 75 / 90 minutes]

1 Display the menu
2 Select [Setup]
3 Select [Off Timer] and set the time

To display the remaining time
“Display Information banner” (p. 14)

When the remaining time is within 3 minutes, the remaining time will flash on screen.

Sets the teletext language ⇒ [Setup Menu] (p. 26)

[MPX]
Selects multiplex sound (if available) ⇒ [Sound Menu] (p. 24)

[Volume Correction]
Adjusts the volume of an individual channel or input mode ⇒ [Sound Menu] (p. 23)

Last view

Switch to the previously viewed channel or input mode

• Press again to return to the present view.

Note
• Channel switching is not available while Direct TV Recording is in progress.
• Watching less than 10 seconds is not regarded as the previously viewed channel or input mode.
Change aspect ratio

Enjoy viewing the image at its optimum size and aspect.
**Press repeatedly until you reach the desired mode**

Press repeatedly until you reach the desired mode

---

If Aspect Selection list is displayed after you press

While the list is displayed, select the mode

- **16:9**
  - Directly displays the image at 16:9 without distortion (anamorphic).

- **14:9**
  - Displays the image at the standard 14:9 without distortion.

- **Just**
  - Displays a 4:3 image full-screen. Stretching is only noticeable at the left and right edges.

- **4:3**
  - Displays the image at the standard 4:3 without distortion.

- **4:3 Full**
  - Displays a 4:3 image enlarged horizontally to fit the screen. *HD signal only*

- **Zoom1**
  - Displays a 16:9 letterbox (anamorphic) image full-screen without distortion.

- **Zoom2**
  - Displays a 2.35:1 letterbox (anamorphic) image full-screen without distortion. At 16:9, displays the image at its maximum (with slight enlargement).

Note

- Only [16:9] and [4:3] are available in PC input mode.
- Aspect is fixed to [16:9] when [Viewing Mode] is set to [Game] in the Picture Menu.
- Not available in teletext service.
- Aspect mode can be memorised separately for each SD (Standard definition) and HD (High definition) signals.

Change OSD language

You can change language for on-screen displays.

1 Display the menu

Viewing Teletext

Teletext services are the text information provided by the broadcasters. The features may vary depending on the broadcasters.

What is FASTEXT mode?
In FASTEXT mode, four differently coloured subjects are displayed at the bottom of the screen. To access more information about one of these subjects, press the corresponding coloured button. This facility enables fast access to information on the subjects shown.

What is List mode?
In List mode, four differently coloured page numbers are displayed at the bottom of the screen. Each of these numbers can be altered and stored in the TV’s memory. (“Store frequently viewed pages” p. 17)

To change mode ⇒ [Teletext] in the Setup Menu (p. 26)

Switch to Teletext
- Displays the index page (content varies depending on the broadcasters)

Select the page
- Use the arrow buttons or CH or G or Y or B (Corresponds to the colour bar)
- To adjust contrast
  MENU (press three times) ⇒ As the blue bar is displayed

To return to TV TEXT or EXIT

| **Contrast**          | The picture hue can be adjusted to suit your taste  
                         |  | • For NTSC signal, Component or HDMI input  
| **Brightness**        | Colour density variation among broadcast channels can be adjusted to three levels for each reception channel  
                         |  | • Select the channel you want to adjust and set this function.  
| **Colour**            | Changes the colour appearance to vivid ones  
                         |  | • Not valid on PC signal.  
| **Sharpness**         | Automatically adjusts the screen brightness appropriately as the surrounding light level lowers to reduce the power consumption  
                         |  | • Not available in Shop mode (Dynamic picture mode)  
| **Tint**              | Picture Noise Reduction  
                         |  | • Automatically reduces unwanted picture noise and flicker noise in the contoured parts of a picture  
                         |  | • Not valid on PC signal.  
| **Colour Balance**    |  | Makes still or slow moving pictures look more vivid  
                         |  | • Occasionally, while viewing still or slow moving pictures, colour patterning may be seen. Set to [On] to display sharper and more accurate colours.  
                         |  | • For PAL or NTSC signal reception only  
| **Vivid Colour**      |  | • Not valid on Component, PC, HDMI and Media Player  
| **Eco Mode**          |  |  
| **P-NR**              |  |  
| **3D-COMB**           |  |

**Note**
- You can customise the settings of [Backlight], [Contrast], [Brightness], [Colour], [Sharpness], [Tint], [Colour Balance], [Vivid Colour], [Eco Mode], [P-NR] and [3D-COMB] for each [Viewing mode] and input to suit your viewing preference.
- Set for each input signal.

### Speaker Distance to Wall
- **Over 30cm**
- **Up to 30cm**

Adjust the low frequency sound
- If the space between the back of TV and wall is over 30 cm, [Over 30cm] is recommended.
- If the space between the back of TV and wall is within 30 cm, [Up to 30cm] is recommended.

### MPX
- **Stereo**
- **Mono**
- **M1**
- **M2**

Select multiplex sound mode (if available)
- **[Stereo]**: Use this normally
- **[Mono]**: When stereo signal cannot be received
- **[M1] / [M2]**: Available while mono signal is transmitted

### SPDIF Selection
- **Auto**
- **PCM**

SPDIF: A standard audio transfer file format
Selects the initial setting for digital audio output signal from HDMI2 terminal
- **[Auto]**: Dolby Digital is output as Dolby Digital Bitstream. HE-AAC and MPEG are output as PCM.
- **[PCM]**: Digital output signal is fixed to PCM.
  - Video mode (p. 37)
  - Amplifier with ARC (Audio Return Channel) only

### HDMI1 / 2 Input
- **Digital**
- **Analogue**

Select to fit the input signal (p. 51)
- **[Digital]**: HDMI cable connection
- **[Analogue]**: HDMI-DVI adaptor cable connection
  - HDMI input mode only

### Reset to Defaults

Press the OK button to reset settings of the present [Mode], [Balance], [Headphone Volume] and [Surround] in the Sound Menu to the default.
### How to Use the Menu Functions

#### Input Resolution
- VGA (640 × 480 pixels), WVGA (852 × 480 pixels), XGA (1,024 × 768 pixels), WXGA (1,280 × 768 pixels, 1,366 × 768 pixels)
- Options change depending on signals

#### Clock
- Set to the minimum level if noise occurs.

#### H-pos
- Adjust horizontal position

#### V-pos
- Adjust vertical position

#### Clock Phase
- Eliminates flicker and distortion
- Adjust after Clock adjustment
- Set to the minimum level if noise occurs

#### Sync
- **H & V**: By the horizontal and vertical signals from your PC
- **On Green**: Sync on Green sync from your PC

#### Reset to Defaults
- Press the OK button to reset the PC Setup settings to the default

#### Off Timer
- **Off**
- **15 / 30 / 45 / 60 / 75 / 90 minutes**
- Set the time the TV automatically goes to Standby mode

#### Eco Navigation
- Automatically sets the TV to the most suitable energy-saving mode
- If you press the OK button, the following items are set as below:
  - [Eco Mode], [VIERA Link], [Power off Link], [Standby Power Save], [Power Save] ➔ [On]
  - [Intelligent Auto Standby] ➔ [On (No reminder)]
  - [Auto Standby] ➔ [2 hours]

* A different menu will be displayed in the mode of Media Player operations. (p. 32 - 40)
* Only available items can be selected.
Tuning and Editing Channels

You can make Auto Tuning, listing your favourite channels, skipping unwanted channels, etc.

Preparations:
1. Select TV mode
   - The selected mode is displayed on the screen (p. 14)

2. Display the menu

3. Select [Setup]
   - select
   - access

Select [Tuning Menu]

1. Access
   - select
   - access

Select a function

Channel List Edit
Auto Tuning
Manual Tuning

For details ⇒ (p. 28)

For Auto Tuning, using the buttons on the side panel of the TV (p. 10)

1. Press repeatedly until [Auto Tuning] appears

2. Access [Auto Tuning]

3. Start [Auto Tuning]

* To return to TV
[Channel List Edit] - Skip unwanted channels / Edit channels (Change name, move)

You can hide unwanted channels. The hidden channels cannot be displayed except in this function. Use this function to skip unwanted channels.

Select a channel and reveal / hide

- To reveal all channels
- To retune each channel (Manual Tuning)

Select a channel and reveal / hide

- To reveal
- To hide

To edit channels

You can also edit each channel in the Channel List.

Select the channel to edit, then:

- To move the channel position
- To rename the channel

Set characters
(see below)

Note
- If a VCR is connected only with the RF cable, edit [VCR].

[Auto Tuning] - Set all TV channels automatically

1 Start Auto Tuning

- All tuning data will be erased

2 Settings are made automatically

Automatically retune all TV channels received in the area.

[Manual Tuning] - Set TV channel manually

Set TV channel manually after Auto Tuning.

Fine Tuning
- Use to make small adjustments to the tuning of an individual channel (affected by weather conditions, etc.)

Manual Tuning
Set channel manually after Auto Tuning.
- Set Sound System and Colour System, and then perform this function. Set Colour System [Auto] normally.
- If a VCR is connected only with the RF cable, select channel position [0].

1 Select a channel position

2 Select a channel

3 Search and store

■ To edit channels

You can also edit each channel in the Channel List.

Select the channel to edit, then:

- To move the channel position
- To rename the channel

Set characters
(see below)

Note
- If a VCR is connected only with the RF cable, edit [VCR].
Child Lock

You can lock specific channels / AV input terminals to control who could watch them. When the locked channel / input is selected, a message appears; by entering the PIN number, you can watch it.

**Preparations:**
1. Display the menu
2. Select [Setup]

**Select [Child Lock]**

**[Child Lock]** - Control channel audience

1. Enter the PIN number (4 digits)
   - Child Lock-PIN Entry
   - *Please enter new PIN*
   - PIN
   - **Enter the PIN number twice at first setting.**
2. Select [Child Lock List]
   - Child Lock
   - Change PIN
   - Child Lock List

**Select the channel / input to be locked**

- : Appears when the channel / input is locked

**To change the PIN number**

Select [Change PIN] in [Child Lock] and enter a new PIN number twice.

**Note**
- Make a note of the PIN number in case you forget it.
- Performing [Shipping Condition] (p. 31) erases the PIN number and all settings.
Input Labels

For easier identification and selection of the input mode, you can label each input mode or skip terminal that is not connected to any equipment.

* To select the input mode ⇒ (p. 18)

Preparations:
1 Display the menu
MENU

2 Select [Setup]

1 Select [Display Settings]

2 Select [Input Labels]

3 Select an input terminal and set

The labels you set will be displayed in [Input Selection] menu (p. 18) or banner.

* If [Skip] is selected, you cannot select the mode.

User input

You can name each input mode freely.

1 Select [User input]

2 Set characters one by one

3 Store

(maximum: ten characters)

* You can also set the characters by using the numeric buttons (p. 20)
Shipping Condition (Reset settings)

Resets the TV to its original condition, i.e. no channels tuned in.
All settings are reset (channels, picture, sound settings, etc.).

Preparations:
1 Display the menu
   MENU
2 Select [Setup]
   ① select
   ② access

Select [System Menu]

1 Select [System Menu]

Select [Shipping Condition]

2 Select [Shipping Condition]
   ① select
   ② access

[Shipping Condition] - Restore settings

1 Check the message and reset
   Shipping Condition
   All tuning data will be erased
   Are you sure?
   Are you sure?
   (confirm)

2 Follow the on-screen instructions
   Reset to Factory Shipping Condition
   Completed.
   Please switch off TV.

   * [Auto Tuning] will automatically start when
     Mains power On/Off switch is next turned on
     (p. 12).

To return to TV
EXIT

To retune TV channels only, e.g. after moving house
⇒ [Auto Tuning] in “Tuning and Editing Channels” (p. 28)
Using Media Player

Media Player allows you to enjoy photo, video or music recorded on an SD Card or a USB Flash Memory.

VIERA IMAGE VIEWER is a function that enables easy-viewing of photos or videos recorded on an SD Card on the TV screen by simply inserting the SD Card into the SD Card slot.

- Photo mode : Still pictures recorded by digital cameras will be displayed.
- Video mode : Moving pictures recorded by digital video cameras will be played back.
- Music mode : Digital music data will be played back.

When these functions are used, the audio signal is output from audio output terminals.
- [Date] shows the date on which the recording was made by the recording equipment. The file without record of the date is shown as [****/**/**].
- The picture may not appear correctly on this TV depending on the recording equipment used.
- Display may take some time when there are many files and folders in the SD card or USB Flash Memory.
- Partly degraded files might be displayed at a reduced resolution.
- The folder and file names may be different depending on the digital camera or digital video camera used.

To insert or remove the SD Card / USB Flash Memory

- **USB Flash Memory**
  - Insert or remove straightly and completely.

- **SD Card**
  - **To insert the SD Card**
    - Gently insert the SD Card label surface facing front.
  - **To remove the SD Card**
    - Push until a click is heard
  - Push the centre of the card

- For more information on the SD Card, USB Flash Memory and supported file formats (p. 53 - 54)
Starting Media Player

1 Insert the SD Card or USB Flash Memory  
   (p. 32)  
   When the SD Card is inserted, the input mode automatically switches to Media Player.

2 Switch to Media Player

3 Select the icon you want to access
   - If only one device is connected, this step will be skipped.

4 Select the content
   - You can also access each mode directly by using VIERA TOOLS.
     “How to Use VIERA TOOLS” (p. 19)

Change the device

You can change to the other device input directly in the same mode if two or more devices are connected.

1 Display the menu

2 Select the icon you want to access

3 Select the content

4 Select the device

5 To return to TV

To return to the previous screen

---

If only one device is connected, this step will be skipped.

You can also access each mode directly by using VIERA TOOLS.

“How to Use VIERA TOOLS” (p. 19)
**Photo mode**

Supported file format ⇒ (p. 54)

The thumbnail of all the photos in the SD Card or USB Flash Memory will be displayed.

Example : Thumbnail - [All photos]

- To change the number of photos on a thumbnail screen at a time (7 × 4 ↔ 10 × 6)

  ![Thumbnail Screen]

- To change the background music ⇒ “Photo Setup” (p. 35)
- To display the information of the highlighted photo

![Info Screen]

To sort by folder, recorded date or recorded month

1. Display the viewing mode selection screen

2. Select the sort type

   - **Folder view**:
     - Displays the thumbnails grouped by folders
     - The files which are not in a folder will be collected into the folder named “/”.

   - **Sort by Date**:
     - Displays the thumbnails grouped by the same date
     - The group of the photos without recorded date is shown as [Unknown].

   - **Sort by Month**:
     - Displays the thumbnails grouped by the same month
     - The group of the photos without recorded date is shown as [Unknown].

3. Select one of the sorted groups to display the thumbnails of the selected group

![Sort Screen]

- To return to the thumbnail of all photos

![All Photos Screen]
[Single view] - Photos are displayed one at a time. Select the file from the thumbnail of photos to be viewed.

Example:

[Slideshow] - Slideshow will complete when all photos have been viewed within the present thumbnail.

1 Select the file from the thumbnail of photos for the first view
2 Start Slideshow

[Photo Setup]

Setup the settings for Photo mode.

1 Display the option menu
2 Select [Slideshow Settings]
3 Select the items and set

Note

* Picture quality may become lower depending on the slideshow settings.
* Picture setting may not work depending on the slideshow settings.
### Frame
Selects the indication frame of the slideshow

- **Off** / **Multi** / **Collage** / **Drift (+ calendar)** / **Drift** / **Gallery (+ calendar)** / **Gallery** / **Cinema**
  - **Multi**: 9 division display like tiled design.
  - **Collage**: A photo is displayed at random position and scale.
  - **Drift (+ calendar) / Drift**: Photos are displayed like flow images.
    - You can select to display the calendar or not. To change the month of the calendar, press the left or right cursor button while viewing the slideshow.
  - **Gallery (+ calendar) / Gallery**: Various sizes of photos in the frame are displayed.
    - You can select to display the calendar or not. To change the month of the calendar, press the left or right cursor button while viewing the slideshow.
  - **Cinema**: Photos are displayed like old films (sepia tone).

### Colour Effect
Selects the colour effect of photos on Single view and Slideshow

- **Off** / **Sepia** / **Gray scale**
  - This function is not available when **Frame** is set to **Drift**, **Gallery** or **Cinema**.

### Transition Effect
Selects the transition effect for photo switching during slideshow

- **Off** / **Fade** / **Slide** / **Dissolve** / **Motion** / **Random**
  - **Fade**: The next photo fades in gradually.
  - **Slide**: The next photo slides and appears from the left side.
  - **Dissolve**: The photo is replaced by an indefinite block unit.
  - **Motion**: The photo is replaced with enlarged, reduced, moved up or moved down.
  - **Random**: Each transition mode is performed randomly.
    - This function is available when **Frame** is set to **Off**.

### Screen Mode
Selects enlarged or normal viewing mode on Single view and Slideshow

- **Normal** / **Zoom**
  - This function is not available when **Frame** is set to **Collage**, **Drift**, **Gallery** or **Cinema**.
  - Depending on the photo size, the photo may not be enlarged.

### Burst Playback
Selects whether the continuous shots are displayed in rapid interval during the slideshow

- **Off** / **On**
  - This function is not available when **Frame** is set to **Drift**, **Gallery** or **Cinema**.
  - This function is not available when **Transition Effect** is set to **Motion**.

### Interval
Selects slideshow interval

- **5** / **10** / **15** / **30** / **60** / **90** / **120** (seconds)
  - This function is not available when **Transition Effect** is set to **Motion**.

### Repeat
Slideshow repeat

- **Off** / **On**

### Background Music
Selects the background music during Photo mode

- **Off** / **Type1** / **Type2** / **Type3** / **User** / **Auto**
  - **Type1**, **Type2** and **Type3** are the fixed music each installed in this TV.
  - **User**: Music data in the current device registered by yourself will be played back.

#### To register the music
1. Select the music file
2. Select **File** or **Folder**

- **Register Slideshow BGM?**

    | Type   | Music File Access |
    |--------|-------------------|
    | File   | 1 select          |
    | Folder | 2 set             |

- **File**: The selected music file will be registered as background music.
- **Folder**: All the music in the folder which contains the selected music file will be registered as background music.

- **Auto**: Music data stored in the root folder of the current device will be played back randomly.
  - If there is no available music data, no sound will be produced.
**Change the contents**

You can switch to the other mode of Media Player from the thumbnail view.

1 **While the thumbnail is displayed, display the contents selection**

2 **Select the contents**

- **Photo mode** (p. 34)
- **Video mode** (below)
- **Music mode** (p. 40)

**Video mode**

Supported file format  (p. 54)

The thumbnail of video titles in the SD Card or USB Flash Memory will be displayed.

Example: Thumbnail - [Title view]

The preview will start when the title is highlighted if it supports a preview.
- To turn off the preview  “Video Setup” (p. 38)
- To display the information of the highlighted title

**Scene view**

Example: Thumbnail - [Scene view]

The preview will start when the scene is highlighted if it supports a preview.
- To turn off the preview  “Video Setup” (p. 38)
- To display the information of the highlighted scene

- **Playback from Title view**

Playback of the selected title will start.
- To repeat playback  “Video Setup” (p. 38)

1 **Select the title**

2 **Start playback**
■ Playback from the selected scene in the title
Playback will start from the selected scene to the end of the title.
* To repeat playback ⇒ “Video Setup” (p. 38)

1 Select the title
2 Select the scene
3 Start playback

Note
* The structure of titles and scenes may vary depending on the digital video camera used.

■ How to operate playback
Example: Playback

- To display / hide the operation guide and information banner
- To operate playback
- To change aspect
- To the previous title / scene
- To the next title / scene
- To return to thumbnail

■ To change the content ⇒ “Change the contents” (p. 37)

Video Setup
Setup the settings for Video mode.
1 Display the option menu in the thumbnail view
2 Select [Video Setup]
3 Select the items and set

<table>
<thead>
<tr>
<th>Item</th>
<th>Adjustments / Configurations (alternatives)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Video Preview</td>
<td>Sets to start the preview of the title or scene in the thumbnail view [Off] / [On]</td>
</tr>
<tr>
<td>Repeat</td>
<td>Playback repeat within the title [Off] / [On] Only the selected file will be repeated.</td>
</tr>
</tbody>
</table>

* Image may not be displayed for an instant in the thumbnail view. Set the preview [Off] to resolve this.
Confirm or change the current status

You can confirm or change the current status of the content.
● Menu items and selectable options vary depending on the content.

<table>
<thead>
<tr>
<th>1 Display the option menu during playback</th>
<th>2 Select [Video Setup]</th>
<th>3 Select the items and set</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image" alt="Option Menu" /></td>
<td>Video Setup</td>
<td><img src="image" alt="Video Setup Menu" /></td>
</tr>
</tbody>
</table>

**Video Setup Menu**

- Main Audio: Macro
- Subtitle: Off
- Subtitle text: Latin1
- Aspect Change: Aspect1
- Repeat: Off

---

**Item** | **Adjustments / Configurations (alternatives)**
---|---
Multi Audio | Allows you to select between selectable sound tracks (if available)
● It may take several seconds to change the sound.
Subtitle | Turn the subtitle on/off and select the subtitle file (if available)
[Off] / [Subtitle1] / [Subtitle2] ...
Subtitle text | Selects the font type, if the subtitles text are not displayed correctly.
● Some subtitles text may not be displayed correctly.
Aspect Change | [Aspect1]: Displays the content full-screen
[Aspect2]: Displays the content square
[Original]: Displays the content original size
● You can also change the aspect using the ASPECT button.
● Aspect change may not work depending on the content.

---

**Audio output settings**

You can enjoy the multi-channel sound via an amplifier connected to the HDMI2 terminal.
● To confirm or change the current sound status ⇒ “Confirm or change the current status” (p. 39)

<table>
<thead>
<tr>
<th>1 Display the menu</th>
<th>2 Select [Sound]</th>
<th>3 Select [SPDIF Selection] and set</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image" alt="MENU" /></td>
<td><img src="image" alt="Sound Menu" /></td>
<td><img src="image" alt="SPDIF Selection" /></td>
</tr>
</tbody>
</table>

**SPDIF Selection**

- SPDIF: A standard audio transfer file format
- Selects the initial setting for digital audio output signal from the HDMI2 terminal
[Auto] / [PCM]
[Auto]: Dolby Digital is output as Dolby Digital Bitstream. MPEG is output as PCM.
[PCM]: Digital output signal is fixed to PCM.
Music mode

Supported file format ⇒ (p. 54)
The thumbnail of music folders in the SD Card or USB Flash Memory will be displayed.
Example: Thumbnail - [Folder view]

- To display the information of the highlighted folder
  INFO Folder name: My Music_1
  Number of files: 11

**Playback from Folder view**
All the files in the selected folder will be played back.

1. Select the folder
2. Start playback

**Playback from File view**
Selected file will be played back.

1. Select the folder
2. Select the file
3. Start playback

**How to operate playback**
- To display / hide the operation guide
- To operate playback
  - Rewind
  - Pause / Playback
  - Fast forward
  - Stop
  - To the previous track
  - To the next track
  - To return to thumbnail

**Music Setup**
Setup the setting for Music mode.

1. Display the option menu
2. Select [Music Setup]
3. Set

[FOLDER]: Playback repeat within the selected folder
[ONE]: Playback repeat on the selected one file

Supported file format
The thumbnail of music folders in the SD Card or USB Flash Memory will be displayed.
Example: Thumbnail - [Folder view]

- To display the information of the highlighted folder
  INFO Folder name: My Music_1
  Number of files: 11

**Playback from Folder view**
All the files in the selected folder will be played back.

1. Select the folder
2. Start playback

**Playback from File view**
Selected file will be played back.

1. Select the folder
2. Select the file
3. Start playback

**How to operate playback**
- To display / hide the operation guide
- To operate playback
  - Rewind
  - Pause / Playback
  - Fast forward
  - Stop
  - To the previous track
  - To the next track
  - To return to thumbnail

**Music Setup**
Setup the setting for Music mode.

1. Display the option menu
2. Select [Music Setup]
3. Set

[FOLDER]: Playback repeat within the selected folder
[ONE]: Playback repeat on the selected one file

Supported file format
The thumbnail of music folders in the SD Card or USB Flash Memory will be displayed.
Example: Thumbnail - [Folder view]
VIERA Link Functions

**VIERA Link “HDAVI Control™”**

Enjoy additional HDMI interoperability with Panasonic products which have “HDAVI Control” function. This TV supports “HDAVI Control 5” function.

Connections to equipment with HDMI cable such as a DIGA Recorder, HD Video Camera, Player theatre, Amplifier, etc., allow you to interface to them automatically.

These features are limited to models incorporating “HDAVI Control” and “VIERA Link”.

- Some functions are not available depending on the equipment's version of HDAVI Control. Please confirm the connected equipment's version of HDAVI Control.
- VIERA Link “HDAVI Control”, based on the control functions provided by HDMI which is an industry standard known as HDMI CEC (Consumer Electronics Control), is a unique function that we have developed and added. As such, its operation with other manufacturers' equipment that supports HDMI CEC cannot be guaranteed.
- Please refer to individual manuals for the external equipment. About applicable Panasonic equipment, consult your local Panasonic dealer.

**Summary of features**

</table>

- 1: HDMI connection only
- 2: HDMI and Audio out connections
- 3: available with equipment which has “HDAVI Control 2 or later” function
- 4: available with equipment which has “HDAVI Control 3 or later” function
- 5: available with equipment which has “HDAVI Control 4 or later” function
- 6: available with DIGA Recorder which has HDD function
- 7: while playing a disc
- 8: except for watching a disc

**Connection**

* To use DIGA Recorder / DVD Player / Blu-ray Disc Player / HD Video Camera / LUMIX Camera:

- HDMI cable

  ![DIGA Recorder / DVD Player / Blu-ray Disc Player / HD Video Camera / LUMIX Camera](HDMI_cable.png)

  DIGA Recorder / DVD Player / Blu-ray Disc Player / HD Video Camera / LUMIX Camera with VIERA Link function

* To use Player theatre / Blu-ray Disc theatre:

- HDMI cable + RCA cable*9

  ![Player theatre / Blu-ray Disc theatre](HDMI_RCA_cable.png)

  Player theatre / Blu-ray Disc theatre with VIERA Link function

* To use Amplifier:

- HDMI cable

  ![Amplifier with VIERA Link function](HDMI_cable.png)

  Amplifier with VIERA Link function

* To use DIGA Recorder with VIERA Link function

- HDMI cable

  ![DIGA Recorder with VIERA Link function](HDMI_cable.png)

  DIGA Recorder with VIERA Link function

*9: If the connected equipment has “HDAVI Control 5” function, you do not have to use RCA cable. In this case, connect the equipment to the TV’s HDMI2 terminal via an HDMI cable.
Note

- For a DIGA Recorder / DVD Player / Blu-ray Disc Player / HD Video Camera / LUMIX Camera with VIERA Link function, connect to HDMI1 or HDMI2 terminal via an HDMI cable.
- For a Player theatre / Blu-ray Disc theatre / Amplifier, connect to HDMI1 or HDMI2 terminal via an HDMI cable, and also connect an RCA cable for audio output from the TV.
- Use a fully wired HDMI compliant cable. Non-HDMI-compliant cables cannot be utilised.
- Recommended Panasonic’s HDMI cable part number:
  • RP-CDHS15 (1.5 m)
  • RP-CDHS30 (3.0 m)
  • RP-CDHS50 (5.0 m)

Preparations

- Connect the equipment supporting VIERA Link.
- Set up the connected equipment. Read the manual of the equipment.
- For optimal recording, the settings of the recorder may need to be changed. For details, read the manual of the recorder.
- Set [VIERA Link] to [On] in the Setup Menu [VIERA Link] (p. 26)
- Set up the TV
  ➤ After connection, turn the equipment on and then switch the TV on. Select the input mode to HDMI1 or HDMI2 (p. 18), and make sure that an image is displayed correctly.

This setup should be done each time when the following conditions occur:
- for the first time
- when adding or reconnecting equipment
- when changing setup

Features available

- Channel download
  Channel settings can be downloaded to the recorder.

- Easy playback
  Automatic input switching - When connected equipment is operated, the input mode is switched automatically.

- [Power on link]
  Set [Power on Link] to [On] in the Setup Menu to use this function [Power on Link] (p. 26)
  When the connected equipment starts playback or direct navigator / function menu for the equipment are activated, the TV is automatically turned on. (Only when the TV is in Standby mode.)

- [Power off link]
  Set [Power off Link] to [On] in the Setup Menu to use this function [Power off Link] (p. 26)
  When the TV is set to Standby mode, the connected equipment is also automatically set to Standby.
  This function will work even if the TV enters Standby mode automatically by auto power standby function.

- [Standby Power Save] - Reduce unnecessary power consumption in standby
  Set [Standby Power Save] to [On] in the Setup Menu to use this function [Standby Power Save] (p. 26)
  The power consumption in Standby mode of the connected equipment is controlled higher or lower in synchronisation with the TV On / Off state to reduce the consumption.
  When the TV is set to Standby mode, the connected equipment is automatically set to Standby and the power consumption in Standby mode of the connected equipment is automatically minimised.
  When the TV is turned on, the connected equipment is still in Standby mode, but the power consumption is increased to make startup time early.
  This function is effective if the connected equipment can change the power consumption in Standby mode and is set to higher consumption.
  This function will work when [Power off Link] is set to [On].

- [Intelligent Auto Standby] - Auto standby for unnecessary equipment
  Set [Intelligent Auto Standby] to [On (With reminder)] or [On (No reminder)] in the Setup Menu to use this function [Intelligent Auto Standby] (p. 26)
  When the TV is On, non-watched or non-used connected equipment goes into Standby mode automatically to reduce the power consumption. For example, when the input mode is switched from HDMI or when [Speaker Selection] is changed to [TV] (except for watching a disc).
  If you select [On (With reminder)], an on-screen message will be displayed before turning on this function.
  This function may not work properly depending on the connected equipment. If required, set to [Off].
Features available (Using VIERA Link Menu)

[Pause Live TV]

You can pause the live TV programme and resume later. Live TV programmes will be recorded on HDD of the connected DIGA Recorder.

- This function is available with a DIGA Recorder which has HDD.
- If you connect a variety of recorders including other manufacturers’ recorders at the same time, please connect the DIGA Recorder which has a HDD to the TV’s lower HDMI terminal number. For example, if you use HDMI1 and HDMI2 for two recorders, in this case connect the DIGA Recorder which has HDD to HDMI1.
- If you cannot operate, check the settings and the equipment

⇒ “Summary of features”, “Connection”, “Preparations” (p. 41 - 42)

Access and pause the live TV programme

1 Display [VIERA Link Menu]

2 Select [Pause Live TV] and pause

The TV picture will be paused.

- The live TV programme is recorded on HDD from where it was paused
- If the paused TV picture disappears after a few minutes

⇒ (the paused picture will be restored)

■ To operate Pause Live TV

- Operations may be different depending on the recorder. In this case, follow the operation guide or read the manual of the recorder.

■ To return to Live TV

(stop playback of Pause Live TV / cancel pause)

- If you stop playback or cancel pause, the recorded programme will be deleted from HDD.

PAUSE TV

STOP PAUSE TV? Yes No

① select [Yes] ② stop
[Direct TV Rec] - What you see is What you record

Recording the current programme in DIGA Recorder immediately.

- If you connect a variety of recorders including other manufacturers’ recorders at the same time, please connect the DIGA Recorder to the TV’s lower HDMI terminal number. For example, if you use HDMI1 and HDMI2 for two recorders, in this case connect the DIGA Recorder to HDMI1.
- If you cannot operate, check the settings and the equipment
  ➔ “Summary of features”, “Connection”, “Preparations” (p. 41 - 42)

1 Display [VIERA Link Menu]

2 Select [Direct TV Rec] and start recording

To stop recording
Select [Stop] in [Direct TV Rec] and stop recording
[VIERA Link Control] - Operate the connected equipment with VIERA remote control

You can control some functions of the connected equipment with this TV remote control by pointing at the TV’s signal receiver.
- If you cannot operate, check the settings and the equipment
  ➤ “Summary of features”, “Connection”, “Preparations” (p. 41 - 42)
- For details of the operations for the connected equipment, read the manual of the equipment.

Access and operate the menu of the equipment

1 Display [VIERA Link Menu]

2 Select [VIERA Link Control]

3 Select the equipment you want to access
   The type of the connected equipment is displayed. Select the type of the equipment and access.

4 Operate the connected equipment
   - To display the operation guide
   - Store / set / access
   - Move the cursor / select the menu
   - Return to the previous menu
   - Move the cursor / access / adjust
   - Exit the menu
   - When the keywords are displayed on colour bar

   R  G  Y  B

   (Note)
   - Some operations may not be available depending on the equipment. If so, use its own remote control.

If multiple recorders or players are connected

The number is given from the TV’s lower HDMI terminal number connected to the same type of equipment. For example, two recorders connected to HDMI1 and HDMI2, in this case the recorder connected to HDMI1 is displayed as [Recorder1], and the recorder connected to HDMI2 is displayed as [Recorder2].

If you access non-VIERA Link equipment

You can access the menu of the equipment, but you cannot operate it. Use its own remote control to operate the equipment.
[Speaker Selection] - Speaker control

You can control the theatre speaker with this TV remote control by pointing at the TV's signal receiver.

- If you cannot operate, check the settings and the equipment
  ➤ “Summary of features”, “Connection”, “Preparations” (p. 41 - 42)

Access and control the speaker volume

1 Display [VIERA Link Menu]
2 Select [Speaker Selection]
3 Set to [Home Cinema] or [TV]

[Home Cinema]
Player theatre, Blu-ray Disc theatre or Amplifier will be automatically turned on if it is in Standby mode and the sound is from theatre speakers connected to the equipment.

- Volume up / down
- Mute
  - The sound of TV speakers is mute.
  - When the equipment is turned off, TV speakers will be active.

[TV]
TV speakers are active.

Multi-channel sound

- If you wish to enjoy multi-channel sound (e.g. Dolby Digital 5.1ch) via an Amplifier, connect with HDMI cable and RCA cables (p. 41), and then select [Home Cinema]. If your Amplifier has “HDAVI Control 5” function, you can connect only with HDMI cable. In this case, connect your Amplifier to the TV’s HDMI2 terminal.

To enjoy the sound from the DIGA Recorder in multi-channel sound, connect an HDMI cable from the DIGA Recorder to the Amplifier (p. 41).

Note

- These functions may not work properly depending on the connected equipment.
- Image or sound may not be available for the first few seconds when the Input mode is switched.
- Easy playback may be available by using the remote control for Player theatre, Blu-ray Disc theatre or Amplifier. Read the manual of the equipment.
- “HDAVI Control 5” is the newest standard (current as of December, 2010) for HDAVI Control compatible equipment. This standard is compatible with conventional HDAVI equipment.
- To confirm this TV’s version of HDAVI Control ➤ [System Information] (p. 26)
External Equipment

These diagrams show our recommendations for connecting your TV to various equipment. For other connections, consult the instructions for each equipment, the table below, and the specifications (p. 59).

**HDMI connection**

HDMI (High-Definition Multimedia Interface) is the world's first complete digital consumer AV interface complying with a non-compression standard. HDMI allows you to enjoy high-definition digital images and high-quality sound by connecting the TV and the equipment. HDMI-compatible equipment*1 with an HDMI or DVI output terminal, such as a DVD player, a set top box or a game equipment, can be connected to the HDMI terminal using an HDMI compliant (fully wired) cable. About connections, see “External Equipment” (p. 47 - 49).

**Applicable HDMI features**

- **Input audio signal:** 2ch Linear PCM (sampling frequencies - 48 kHz, 44.1 kHz, 32 kHz)
- **Input video signal:** 480i, 480p, 576i, 576p, 720p, 1080i and 1080p
  
  “Input signal that can be displayed” (p. 52)
  
  Match the output setting of the digital equipment.
- **Input PC signal:** “Input signal that can be displayed” (p. 52)
  
  Match the output setting of the PC.
- **VIERA Link (HDAVI Control 5):** [VIERA Link] (p. 41)
- **Audio Return Channel**
  
  *2 (HDMI2 terminal only)

**DVI connection**

If the external equipment has only a DVI output, connect to the HDMI terminal via a DVI to HDMI adaptor cable*3. When the DVI to HDMI adaptor cable is used, connect the audio cable to the audio input terminal (HDMI1 / 2: use AV2 audio terminals).

**Note**

- Audio settings can be made on the [HDMI1 / 2 Input] in the Sound Menu. (p. 24)
- If the connected equipment has an aspect adjustment function, set the aspect ratio to [16:9].
- These HDMI connectors are “type A”.
- These HDMI connectors are compatible with HDCP (High-Bandwidth Digital Content Protection) copyright protection.
- An equipment having no digital output terminal may be connected to the input terminal of “COMPONENT” or “VIDEO” to receive analogue signals.
- This TV incorporates HDMI™ technology.

*1: The HDMI logo is displayed on HDMI-compliant equipment.
*2: Audio Return Channel (ARC) is a function that enables the transmission of digital sound signals via an HDMI cable.
*3: Enquire at your local digital equipment retailer shop.

**PC connection**

A PC may be connected to this TV so that the PC screen is displayed and sound is heard from the TV.

- **PC signals that can be inputted:** Horizontal scanning frequency 31 to 69 kHz; vertical scanning frequency 59 to 86 Hz (more than 1,024 signal lines could result in incorrect display of the image).
- **A PC adaptor is not necessary for the DOS/V-compliant D-sub 15-pin connector.**

**Note**

- Some PC models cannot be connected to this TV.
- When using PC, set the colour display quality of PC to the highest position.
- For details of the applicable PC signals, see p. 52.
- Max. display resolution

</tr>
</tbody>
</table>

- If the stereo signal is poor or the receiving conditions are not optimum or if STEREO:MONO automatic switching occurs, it is recommended you switch from STEREO to MONO.
- Even when the contents of the receiving signal undergo changes, selection mode is kept intact.
- When the receiving conditions deteriorate, listening will be easier if the mode is set to the MONO position, using the Sound Selection button.
- DUAL, also known as DUAL MONO or as BILINGUAL is not currently transmitted in some countries.

Media Player

SD Card
Card format : SDXC Card - exFAT
SDHC Card / SD Card - FAT16 or FAT32
Compliant card type (maximum capacity) : SDXC Card (64 GB), SDHC Card (32 GB), SD Card (2 GB), miniSD Card (2 GB) (requiring miniSD adaptor)

- If miniSD Card is used, insert / remove it together with the adapter.
- Check the latest information on the card type at the following website.
  (English only)
  http://panasonic.jp/support/global/cs/tv/
- Use an SD Card which meets SD standards. If not, it may cause the TV to malfunction.
- Do not remove the card while the TV is accessing data (this can damage the card or TV).
- Do not touch the pins on the back of the card.
- Do not subject the card to high pressure or impact.
- Insert the card in the correct direction (otherwise, card may be damaged).
- Electrical interference, static electricity, or erroneous operation may damage the data or card.
- Back up the recorded data at regular intervals in case of deteriorated or damaged data or erratic operation of the TV. (Panasonic is not liable for any deterioration or damage of recorded data.)

USB Flash Memory
Format : FAT16, FAT32 or exFAT

### Note
- The above table is generalised in nature. Due to file encoding variances, some media files that play on other devices, may not play on the TV even though they fulfill the generalised conditions.
- Do not use two-byte characters or other special codes for data.
- The card may become unusable with this TV if the file or folder names are changed.
**DivX**

DivX Certified® to play DivX® video up to HD 1080p, including premium content.

**ABOUT DIVX VIDEO:**

DivX® is a digital video format created by DivX, Inc. This is an official DivX Certified® device that plays DivX video.

Visit www.divx.com for more information and software tools to convert your files into DivX video.

**Subtitle text file of DivX**

Subtitle format - MicroDVD, SubRip, TMPlayer

- The DivX video file and subtitles text file are inside the same folder, and the file names are the same except for the file extensions.
- If there are more than one subtitles text files inside the same folder, they are displayed in the following order of priority: ".srt", ".sub", ".txt".
- To confirm or change the current subtitle status while playing DivX content, press the OPTION button to display Option Menu.
- Depending on the methods used to create the file or the state of recording, only parts of the subtitles may be displayed, or the subtitles may not be displayed at all.
- Some subtitles text may not be displayed correctly.

**Note**

- Depending on how you save into the SD Card or USB Flash Memory, files and folders may not be displayed in the order you numbered.
- Depending on how you create the files and the structure of folders, the files and folders may not be displayed.
- When there are many files and folders, operation may take time to complete or some files may not be displayed or playable.

**ABOUT DIVX VIDEO-ON-DEMAND:**

This DivX Certified® device must be registered in order to play purchased DivX Video-on-Demand (VOD) movies. To obtain your registration code, locate the DivX VOD section in your device setup menu. Go to vod.divx.com for more information on how to complete your registration.

**To show DivX VOD registration code**

- [DivX® VOD] in the Setup Menu (p. 26)

- If you want to generate the new registration code, you have to deregister the present registration code. After playing DivX VOD content once, the confirmation screen to deregister will be displayed in [DivX® VOD] in the Setup Menu. If you press the OK button on the confirmation screen, the deregistration code will be generated and you will not be able to play any contents that you purchased using the present registration code.

- You will obtain the new registration code by pressing the OK button on the deregistration code screen.

- If you purchase DivX VOD content using a registration code different from this TV’s code, you will not be able to play this content. ([Your device is not authorised to play this DivX protected video.] is displayed.)

**Regarding DivX content that can only be played a set number of times**

Some DivX VOD content can only be played a set number of times.

When you play this content, the remaining number of plays is displayed. You cannot play this content when the number of remaining plays is zero. ([This DivX rental has expired.] is displayed.)

- When playing this content, the number of remaining plays is reduced by one in the following conditions:
  - If you exit the current application.
  - If you play the other content.
  - If you go to the next or previous content.

**USB connection**

- It is recommended to connect the USB Flash Memory directly to the TV’s USB ports.
- Some USB devices or USB HUB may not be used with this TV.
- You cannot connect any devices by using USB card reader.

**Note**

- Additional information on USB devices may be found on the following web site. (English only) http://panasonic.jp/support/global/cs/tv/
FAQs

Before requesting service or assistance, please follow these simple guides to resolve the problem. If the problem still persists, please contact your local Panasonic dealer for assistance.

White spots or shadow images (noise)
- Check the position, direction, and connection of the aerial.
- Keep the space between the TV and RF cable.

Neither image nor sound is produced
- Is the TV in “AV mode”?
- Is the mains lead plugged into the socket outlet?
- Is the TV turned On?
- Check the Picture Menu (p. 21 - 22) and volume.
- Check all required cables and connections are firmly in place.

An error message appears
- Follow the message’s instructions.
- If the problem persists, contact your local Panasonic dealer.

The LCD panel moves slightly when it is pushed with a finger. Clattered sound might be heard
- There are some looseness around the panel to prevent the damage to the panel.
  The panel might move slightly when it is pushed with a finger, and clattered sound might be heard. This is not a malfunction.

There may be red spots, blue spots, green spots and black spots on the screen
- This is a characteristic of liquid crystal panels and is not a problem. The liquid crystal panel is built with very high precision technology giving you fine picture details. Occasionally, a few non-active pixels may appear on the screen as a fixed point of red, green, blue or black. Please note this does not affect the performance of your LCD, and it is not a quality problem.

● Check the input signal from the equipment.  
(p. 52)  
● Use an equipment compliant with EIA/CEA-861/861B.                                                                                                   |
| The TV goes into Standby mode                | ● Auto power standby function is activated.  
● The TV enters Standby mode about 30 minutes after analogue broadcasting ends.                                                                 |
| The remote control does not work or is intermittent | ● Are the batteries installed correctly?  
(p. 8)  
● Has the TV been switched On?  
● Point the remote control directly at the front of the TV (within about 7 m and a 30 degree angle from the front of the TV).  
● Place the TV away from sunshine and do not let other sources of bright light to shine on the TV’s remote control signal receiver. |
Maintenance

First, remove the mains plug from the socket outlet.

Display panel, Cabinet, Pedestal

For regular care:
Gently wipe the surface of the display panel, cabinet, or pedestal by using a soft cloth to clean the dirt or fingerprints.

For stubborn dirt:
Dampen a soft cloth with clean water or diluted neutral detergent (1 part detergent to 100 parts water). Then wring the cloth and wipe the surface. Finally, wipe away all the moisture.

Caution
- Do not use a coarse cloth or rub the surface too hard. This may cause scratches on the surface.
- Take care not to subject the TV’s surfaces to water or detergent. Liquid inside the TV could lead to product failure.
- Take care not to subject the surfaces to insect repellent, solvent, thinner, or other volatile substances. This may degrade surface quality or cause peeling of the paint.
- The surface of the display panel is specially treated and may be easily damaged. Take care not to tap or scratch the surface with your fingernail or other hard objects.
- Do not allow the cabinet and pedestal to make contact with a rubber or PVC substance for a long time. This may degrade surface quality.

Mains plug

Wipe the mains plug with a dry cloth at regular intervals. Moisture and dust may lead to fire or electrical shock.

Information on Disposal in other Countries outside the European Union

This symbol is only valid in the European Union. If you wish to discard this product, please contact your local authorities or dealer and ask for the correct method of disposal.
## Specifications

### Power Source
- **AC Auto 110 - 240 V, 50 / 60 Hz**

### Rear Connection
- **Power Rating**: 99 W
- **Standby condition**: 0.25 W

### Display Panel
- **Aspect Ratio**: 16:9
- **Visible screen size**: 80 cm (diagonal) 698 mm (W) × 393 mm (H)
- **Number of pixels**: 1,049,088 (1,366 (W) × 768 (H))

### Sound
- **Speaker**: (115 mm × 42 mm) × 2 pcs, 8 Ω
- **Audio Output**: 20 W (10 W + 10 W)
- **Headphones**: M3 (3.5 mm) stereo mini Jack × 1

### PC signals
- **VGA, SVGA, WVGA, XGA SXGA, WXGA (compressed)**
- **Horizontal scanning frequency**: 31 - 69 kHz
- **Vertical scanning frequency**: 59 - 86 Hz
