Safety Precautions

Warning

Handling the mains plug and lead

- Insert the mains plug fully into the socket outlet. (If the mains plug is loose, it could generate heat and cause fire.)
- Ensure that the mains plug is easily accessible.
- Do not touch the mains plug with a wet hand. (This may cause electrical shock.)
- Do not damage the mains lead. (A damaged lead may cause fire or electrical shock.)
 - Do not move the TV with the lead plugged in the socket outlet.
 - Do not place a heavy object on the lead or place the lead near a high-temperature object.
 - Do not twist the lead, bend it excessively, or stretch it.
 - Do not pull on the lead. Hold onto the mains plug body when disconnecting the lead.
- Do not use a damaged mains plug or socket outlet.

If you find any abnormality, remove the mains plug immediately!

AC 110 - 240 V,
50 / 60 Hz

- Mains plug types vary between countries.

Power source / Installation

- This TV is designed for:
 - AC 110 - 240 V, 50 / 60 Hz
 - Table top use

Do not insert foreign objects into the TV

- Do not allow any objects to drop into the TV through the air vents. (Fire or electrical shock may result.)

Do not remove covers and NEVER modify the TV yourself

- Do not remove the rear cover as live parts are accessible when it is removed. There are no user serviceable parts inside. (High-voltage components may cause serious electrical shock.)
- Have the TV checked, adjusted, or repaired at your local Panasonic dealer.

Do not place the TV on sloped or unstable surfaces

- The TV may fall off or tip over.

Do not expose to rain or excessive moisture

- To prevent damage which might result in electric shock or fire, do not expose this TV to rain or excessive moisture. This TV must not be exposed to dripping or splashing water and objects filled with liquid, such as vases, must not be placed on top of or above the TV.

Use only the dedicated pedestals / mounting equipment

- Using an unapproved pedestal or other fixtures may make the TV unstable, risking injury. Be sure to ask your local Panasonic dealer to perform setup.
- Use approved pedestals (p. 6) / wall-hanging brackets (p. 6).

Do not expose to direct sunlight and other sources of heat

- Avoid exposing the TV to direct sunlight and other sources of heat.

Do not allow children to handle SD Card

- As with any small object, SD Cards can be swallowed by young children. Please remove SD Card immediately after use and store out of reach of children.

To prevent the spread of fire, keep candles or other open flames away from this product at all times

Caution

This appliance is intended for use in tropical climates

When cleaning the TV, remove the mains plug

- Cleaning an energised TV may cause electrical shock.

When the TV is not going to be used for a long period of time, remove the mains plug

- This TV will still consume some power even in the Off mode, as long as the mains plug is still connected to a live socket outlet.

Transport only in upright position

Allow sufficient space around the TV for radiated heat

Minimum distance

(cm)

- When using the pedestal, keep the space between the bottom of the TV and the surface where the TV is set.
- If using a Wall-hanging bracket, refer to its manual.

Do not block the rear air vents

- Blocked ventilation by newspapers, table cloths, curtains, etc. may cause overheating, fire or electrical shock.

Do not apply strong force or impact to the display panel

- This may cause damage resulting in injury.

Do not expose your ears to excessive volume from the headphones

- Irreversible damage can be caused.

Notes

Auto power standby function

- The TV will automatically go into Standby mode in the following conditions:
 - no signal is received and no operation is performed for 30 minutes in TV mode
 - [Off Timer] is active in the Timer Menu (p. 17)
 - no operation is performed for the period selected in [Auto Standby] (p. 29)

Keep the TV away from these types of equipment

- Electronic equipment
In particular, do not place video equipment near the TV. Electromagnetic interference may distort images / sound.
- Equipment with an infrared sensor
This TV also emits infrared rays. This may affect operation of other equipment.

Accessories / Options

Standard accessories

Remote Control

- N2QAYB000587

Batteries for the Remote Control (2)

- R6 (AA)

Pedestal

→ (p. 7)

Operating Instructions

- This product contains possibly dangerous parts (such as plastic bags), which can be breathed in or swallowed by young children accidentally. Keep these parts out of reach of young children.

Optional accessories

Please contact your nearest Panasonic dealer to purchase the recommended optional accessories. For additional details, please refer to the manual of the optional accessories.

Wireless LAN Adaptor and Extension cable

Please refer to the following web site for usable Wireless LAN Adaptor. (English only)
<http://panasonic.jp/support/global/cs/tv/>

- Additional information for Wireless LAN Adaptor and access point may also be on this web site.

Caution

- To use the Wireless LAN Adaptor, an Access Point needs to be obtained.
- It is recommended to use the Wireless LAN Adaptor with the extension cable.
- To avoid radio wave interference, keep the TV away from the devices such as other wireless LAN devices, microwaves and the devices that use 2.4 GHz and 5 GHz signals when using the Wireless LAN Adaptor. Otherwise malfunction may occur.
- Depending on the area, this optional accessory may not be available.

Communication Camera

- TY-CC10W

Caution

- This camera can be used on VIERA Connect (p. 16).
- Please also read the manual of the camera.
- Depending on the area, this optional accessory may not be available. For details, consult your local Panasonic dealer.

Wall-hanging bracket

- TY-WK3L2RW
- The angle of wall-hanging bracket can be adjusted in “zero tilting (vertical)” and “10-degree tilting” for this TV.

Rear of the TV

Holes for wall-hanging bracket installation

Screw for fixing the TV onto the wall-hanging bracket (not supplied with the TV)

Depth of screw:
 minimum 4 mm
 maximum 17 mm

Screw Thread Type: M6

(View from the side)

Warning

- Using other wall-hanging brackets, or installing a wall-hanging bracket by yourself have the risk of personal injury and product damage. In order to maintain the unit's performance and safety, be absolutely sure to ask your dealer or a licensed contractor to secure the wall-hanging brackets. Any damage caused by installing without a qualified installer will void your warranty.
- Do not mount the unit directly below ceiling lights (such as spotlights, floodlights or halogen lights) which typically give off high heat. Doing so may warp or damage plastic cabinet parts.
- Take care when fixing wall brackets to the wall. Always ensure that there are no electrical cables or pipes in the wall before hanging bracket.
- To prevent fall and injury, remove the TV from its fixed wall position when it is no longer in use.

Attaching the pedestal

Warning

Do not disassemble or modify the pedestal.

- Otherwise the TV may fall over and become damaged, and personal injury may result.

Caution

Do not use any pedestal other than that provided with this TV.

- Otherwise the TV or the display may fall over and become damaged, and personal injury may result.

Do not use the pedestal if it becomes warped or physically damaged.

- If you use the pedestal while it is physically damaged, personal injury may result. Contact your nearest Panasonic dealer immediately.

During set-up, make sure that all screws are securely tightened.

- If insufficient care is taken to ensure screws are properly tightened during assembly, the pedestal will not be strong enough to support the TV, and it might fall over and become damaged, and personal injury may result.

Ensure that the TV does not fall over.

- If the TV is knocked or children climb onto the pedestal with the TV installed, the TV may fall over and personal injury may result.

Two or more people are required to install and remove the TV.

- If two or more people are not present, the TV may be dropped, and personal injury may result.

Assembling the pedestal

Use the assembly screws (A) to fasten the bracket (C) to the base (D) securely.

- Make sure that the screws are securely tightened.
- Forcing the assembly screws the wrong way will strip the threads.

Securing the TV

Insert the bracket into the TV, and then fasten securely with the assembly screws (B).

- Tighten the four assembly screws loosely at first, then tighten them firmly to fix securely.

Inserting and removing remote's batteries

1

2

Caution

- Incorrect installation may cause battery leakage and corrosion, resulting in damage to the remote control.
 - Do not mix old and new batteries.
 - Do not mix different battery types (such as alkaline and manganese batteries).
 - Do not use rechargeable (Ni-Cd) batteries.
 - Do not burn or breakup batteries.
- Batteries must not be exposed to excessive heat such as sunshine, fire or the like.
- Do not disassemble or modify the remote control.

Basic Connection

External equipment and cables shown are not supplied with this TV.
Please ensure that the unit is disconnected from the mains socket before attaching or disconnecting any leads.

Basic Connection

Note

- Keep RF (antenna) cable away from the mains lead and minimise mains interference pickup.
- Do not place the RF cable under the TV.
- To obtain optimum quality picture and sound, an aerial, the correct cable (75 Ω coaxial), and the correct terminating plug are required.
- If a communal aerial system is used, you may require the correct connection cable and plug between the wall aerial socket and the TV.
- Your local Television Service Centre or dealer may be able to assist you in obtaining the correct aerial system for your particular area and the accessories required.
- Any matters regarding aerial installation, upgrading of existing systems or accessories required, and the costs incurred, are the responsibility of you, the Customer.
- To obtain optimum quality picture, select either an Aerial or a cable TV network.
- VIERA Link connection ➔ (p. 56)
- Other equipment connection ➔ (p. 61 - 63)
- Read the manual of the external equipment, too.

Identifying Controls

TV

Identifying Controls

1 USB3 port

2 SD Card slot

3 HDMI4 terminal

4 AV3 terminals

5 Headphones jack

6 Remote control signal receiver

- Do not place any objects between the TV remote control signal receiver and remote control.

7 C.A.T.S. (Contrast Automatic Tracking System) sensor

- Senses brightness to adjust picture quality when [Eco Mode] in the Picture Menu is set to [On] ➔ (p. 26)

8 Power LED

- Red: Standby
- Green: On
- When using the remote control, indicates the TV has received a command.

9 Function select

- [Volume] / [Contrast] / [Brightness] / [Colour] / [Sharpness] / [Tint] (NTSC signal) / [Bass] ([Music] or [Speech] mode in the Sound Menu) / [Treble] ([Music] or [Speech] mode in the Sound Menu) / [Balance] / [Auto Tuning]

10 Channel Up / Down, Value change (when using the F button), Switching the TV On (press either button for about 1 second when in Standby mode)

11 Changes the input mode

12 Mains power On / Off switch

- Use to switch the mains power. If you turned the TV Off during Standby mode by the remote control last time, the TV will be in Standby mode when you turn the TV On with Mains power On / Off switch.

About the Operation Guide - On Screen Displays

The Operation Guide is displayed at the bottom of the on Screen Displays. The button used on this screen and manner of operation is displayed.

Example: [Media Player]

- ➔ (p. 23, 43)

* Some countries do not provide a teletext service

Auto Tuning

Search and store TV channels automatically.

• These steps are not necessary if the setup has been completed by your local dealer.

1

Plug the TV into mains socket and switch On

• You can now use the remote control to turn On the TV or switch the TV to Standby mode. (Power LED: On)

2

Select your language

| OSD Language | | |
|--------------|------------|----------|
| English | العربية | العربية |
| 中文 | Tiếng Việt | فارسی |
| हिन्दी | Indonesia | Français |

3

Select your country

| Country | |
|----------------------|--------------|
| Thailand | Indonesia |
| India | Saudi Arabia |
| Kuwait | Others |
| United Arab Emirates | Viet Nam |
| Singapore | Malaysia |

4

Select your area

| Channel Plan |
|---------------|
| Asia/W.Europe |
| CIS/E.Europe |
| China |
| Hong Kong |
| NZ/Indonesia |
| CATV/Other |

When selecting CATV / Other, press the OK button, and then select the Channel Plan from Indian CATV, South Africa, American System, American CATV or Japan.

Auto Tuning starts

• Auto Tuning will start to search for TV channels and store them. The sorted channel order depends upon the TV signal, the broadcasting system and reception conditions.

5

Setup the network connection

Select the network type

[Wired]: wired connection
➔ (p. 14)

[Wireless]: wireless connection
➔ (p. 14)

• To setup later on or skip this step
➔ Select [Set Later] or 

6 Select [Home]

Please select your viewing environment.

* Home Shop

Auto Tuning is completed

*Viewing environment mode

Home : Recommended mode for viewing at home. Select [Home] for optimal picture / power consumption. [Viewing Mode] is set as [Normal] (p. 26).

Shop : Demonstration mode to explain main features of this TV (for in-store display). [Viewing Mode] is set as [Dynamic] (p. 26).

To return to viewing environment selection mode if you selected [Shop]

- To change viewing environment mode later on, reset all settings by accessing Shipping Condition.
➔ [Shipping Condition] (p. 36)

If you connect the Wireless LAN Adaptor later on, the confirmation screen will be displayed for the setup.

- To setup the Wireless LAN connection ➔ (p. 51)

Setup the network connection

Set up the network connection to enable the network service functions such as VIERA Connect, etc. (p. 16, 55).

- To set up the wireless connection, the Wireless LAN Adaptor is required.
- Please note that this TV does not support wireless public access points.
- Ensure the network connections and network environment are completed before starting setup.

1 Connect the LAN cable or Wireless LAN Adaptor

To enable the network service functions (VIERA Connect, etc.), you need to connect the TV to a broadband network environment.

Rear of the TV

Wired connection

LAN cable (Shielded)

- Use the Shielded Twist Pair (STP) LAN cable.

or

Wireless connection

Wireless LAN Adaptor and Extension cable

- Connect to the USB 1, 2 or 3 port.

Access point

- If you do not have any broadband network services, please consult your retailer for assistance.
- For more information of the network connections (p. 47)

2 Select [Wired] or [Wireless]

3 Start the settings

■ [Wired]

Select [Auto]

- To set manually, select [Manual] and set each item. For details → (p. 49 - 50)

Connection Test

- Check network cable connection.
- Check acquired IP address.
- Check for devices using same IP address.
- Check gateway connection.
- Check server connection.

Automatically setup is done and the test of the network connection starts.

: **succeeded**

The test is successful and the TV is connected to the network.

: **failed**

Check the settings and connections, and then select [Retry]

■ [Wireless]

Select the connection type

Connection Type
Please select network connection type.

Search for access point
WPS(Push button)

- If your access point supports WPS (Push button), then select this option. If not, select [Search for access point].

■ [Search for access point]

Access points found automatically are listed.

Available Access Points

| No. | SSID | Wireless b/mg | Encryption | Retention |
|-----|----------------|---------------|--------------------------|-----------|
| 1 | Access Point A | 11n(2.4GHz) | <input type="checkbox"/> | |
| 2 | Access Point B | 11n(5GHz) | <input type="checkbox"/> | |
| 3 | Access Point C | 11n(5GHz) | <input type="checkbox"/> | |

1 Select your desired access point

- To search access points again
- For the information of the highlighted access point
- To set manually (p. 51)

2 Access the encryption key input mode

- If the selected access point is not encrypted, the confirmation screen will be displayed. It is recommended to select the encrypted access point.

3 Enter the encryption key of the access point (Set characters one by one)

- You can set characters by using numeric buttons.

4 Select [Yes]

- To re-enter the encryption key, select [No].
- If the connection has failed, check the encryption key, settings and positions of your access point. And then, follow the on screen instructions.

Encryption Key Setting
Connection will be made with the following settings:-
SSID : Access Point A
Authentication type : WPA-PSK
Encryption type : TKIP

Please input the encryption key.

Access Point Settings
Encryption key is set to:-
XXXXXXXX

Select 'Yes' to confirm.
Select 'No' to change.

■ [WPS(Push button)]

WPS(Push button)

- 1) Please press the 'WPS' button on the access point until its light flashes.
- 2) When the light is flashing select 'Connect' on TV.

If you are unsure, please check the instruction manual of the access point.

Press the WPS button on the access point until the light flashes. And then, press the OK button to connect the Wireless LAN Adaptor and the access point.

- Ensure that your access point supports WPS for this method.
- WPS: Wi-Fi Protected Setup™

Perform the connection test after the access point setting is finished

Connection Test

- Check access point connection.
- Check acquired IP address.
- Check for devices using same IP address.
- Check gateway connection.
- Check server connection.

: succeeded

The test is successful and the TV is connected to the network.

: failed

Check the settings and connections, and then select [Retry].

- To set manually, select [Manual] and set each item. For details → (p. 51)

4 Complete the network connection

(Press twice)

Using “VIERA Connect”

VIERA Connect is a gateway to the internet services unique to Panasonic and has expanded VIERA CAST features greatly. VIERA Connect allows you to access some specific websites supported by Panasonic, and enjoy internet contents such as photos, videos, games, etc. from VIERA Connect home screen.

• This TV has no full browser function and all features of websites may not be available.

1 Turn power on

- Press for about 1 second
- Mains power On / Off switch should be On. (p. 10)

Every time you turn on the TV, VIERA Connect introduction banner appears. The banner is subject to change.

2 Access VIERA Connect

While the banner is displayed

or INTERNET (VIERA CAST)

- The button design varies depending on the remote control.

Example :

- Depending on the usage conditions, it may take a while to read all the data.
- Messages might be displayed before VIERA Connect home screen. Please read these instructions carefully and follow the on screen instructions.

■ To exit from VIERA Connect

EXIT

- To set the VIERA Connect instruction banner display off
➔ [VIERA Connect Banner] (p. 31)

Example : VIERA Connect home screen

- To go to the next level
➔ [MORE]
- To back to the previous level
➔ [BACK]

■ How to operate VIERA Connect (current as of January, 2011)

• To move the cursor / select the item

• When the key words are displayed on colour bar

• To access

• When options with numbers are displayed

• To return to the previous screen

• To return to VIERA Connect home screen

• Video communication requires an exclusive Communication Camera TY-CC10W.

➔ “Optional accessories” (p. 6)

For details, read the manual of the Communication Camera.

• You can connect a keyboard and a gamepad via USB port for character input and playing games in VIERA Connect. You can also operate the TV with a keyboard or a gamepad other than VIERA Connect features. For more information ➔ “USB connection” (p. 71)

Note

- If you cannot access VIERA Connect, check the network connections and settings (p. 14 - 15).
- For more information of VIERA Connect ➔ (p. 55)

Watching TV

1 Turn power on

- Mains power On / Off switch should be On. (p. 10)

■ VIERA Connect banner appears

You can access to VIERA Connect and enjoy the various contents.

- To remove this banner, leave for about 5 seconds or press any buttons (except the buttons to access VIERA Connect).
- To set this banner display off [VIERA Connect Banner] (p. 31)

2 Select TV mode

3 Select a channel

- To select the two-digit channel number, e.g. 35

3 **5** (in a short time)

- If one-digit channel number

(quickly changes the channel)

- When the TV is switched to standby, there will be a clicking sound after a short delay. This is normal.

Other useful functions

Hold

Freeze / unfreeze picture

Off Timer

Turn the TV off automatically after a fixed period of time [Off / 15 / 30 / 45 / 60 / 75 / 90 minutes]

1 Display the menu

2 Select [Timer]

3 Select [Off Timer] and set the time

| | |
|--------------|------------|
| Off | Off |
| Off Timer | 15 minutes |
| Auto Standby | 30 minutes |
| | 45 minutes |
| | 60 minutes |
| | 75 minutes |
| | 90 minutes |

- To cancel ➔ Set to off or turn the TV off.
- To display the remaining time ➔ "Display Information banner" (p. 18)
- When the remaining time is within 3 minutes, the remaining time will flash on screen.

Adjusts volume of individual channel or input mode → [Sound Menu] (p. 28)

Last view

Switch to previously viewed channel or input mode easily

LAST VIEW

- Press again to return to the present view.

Note

- Switching channel is not available while Direct TV Recording is in progress.
- Watching less than 10 seconds is not regarded as the previously viewed channel or input mode.

Change aspect ratio

Enjoy viewing the image at its optimum size and aspect.

Press repeatedly until you reach the desired mode

■ If Aspect Selection list is displayed

1 Display Aspect Selection list

2 While the list is displayed, select the mode

Note

- Only [16:9] and [4:3] are available in PC input mode.
- Aspect is fixed to [16:9] when [Viewing Mode] is set to [Game] in the Picture Menu.
- Not available in teletext service.
- Aspect mode can be memorised separately for each SD (Standard definition) and HD (High definition) signals.

Change OSD language

You can change language for on screen displays.

1 Display the menu

3 Select [OSD Language]

4 Select the language and set

Viewing Teletext

Teletext services are the text information provided by the broadcasters. The features may vary depending on the broadcasters.

What is FASTEXT mode?

In FASTEXT mode, four differently coloured subjects are situated at the bottom of the screen. To access more information about one of these subjects, press the appropriately coloured button. This facility enables fast access to information on the subjects shown.

What is List mode?

In List mode, four differently coloured page numbers are situated at the bottom of the screen. Each of these numbers can be altered and stored in the TV's memory. ("Store frequently viewed pages" → p. 21)

■ To change mode → [Teletext] in the Setup Menu (p. 30)

1 Switch to Teletext

- Displays the index page (content varies depending on the broadcasters)

2 Select the page

- 1 2 3

- Sub pages:

The number of sub pages varies depending on the broadcasters.

It may take some time for searching, during which time you can watch TV.

Watch TV while waiting for update

View the TV picture while searching for a teletext page

Teletext automatically updates itself when new information becomes available.

MENU → Y →  Appears when updating is completed →  View the updated page

Changes to TV screen temporarily (You cannot change the programme.)

- The news page provides a function that indicates arrival of latest news (“News Flash”).

Watching External Inputs

Connect the external equipment (VCRs, DVD equipment, etc.) and you can watch through the input.

- To connect the equipment ➔ (p. 9, 61 - 63)

1 Display the input selection menu

When viewing PC ➔ **PC** (➔ skip to 3)

2 Select the input mode connected to the equipment

Example (AV2)

- You can also select the input using the AV button on the remote control or the side panel of the TV (p. 10). Press the button repeatedly until the desired input is selected.
- You can label or skip each input mode ➔ **[Input Labels]** (p. 35). Skipped inputs will not be displayed when the AV button is pressed.

3 View

Example (AV2)

Displays the selected mode

- If the external equipment has an aspect adjustment function, set to [16:9].

Example (PC)

Displays the selected mode

- You can also listen to PC sound with the audio cable connected. To connect ➔ (p. 63)
- You can setup some functions ➔ PC Setup (p. 30) in the Setup Menu.
- For HDMI-compatible PC, possible to connect to HDMI terminals (HDMI1 / HDMI2 / HDMI3 / HDMI4) by using HDMI cable (p. 65, 66).

■ To return to TV

Operating the equipment with the TV remote control

The Panasonic equipment connected to the TV can be directly operated with the below buttons of this TV remote control.

| | |
|---|---|
|  | Standby Set to Standby mode / Turn on |
|  | Play Playback videocassette / DVD |
|  | Stop Stop the operation |
|  | Rewind / Skip / Search VCR: Rewind, view the picture rapidly in reverse DVD / video content: Skip to the previous track, title or chapter Press and hold to search backward |
|  | Fast-forward / Skip / Search VCR: Fast-forward, view the picture rapidly forward DVD / video content: Skip to the next track, title or chapter Press and hold to search forward |
|  | Pause Pause / Resume DVD: Press and hold to play at slow speed |
|  | Programme Up / Down Select programme |
|  | Record Start recording |

How to change the code for the type of the equipment

Each type of Panasonic equipment has its own remote control code.

Please change the code for each equipment you want to operate.

If you operate the connected equipment in VIERA Link (p. 56), select the code "73".

Press and hold  during the following operations

Enter the appropriate code  → Press 

| Type of the equipment | Code |
|---|--------------|
| DVD Recorder / DVD Player | 70 (default) |
| Player theatre / Blu-ray Disc theatre | 71 |
| VCR | 72 |
| The equipment using in VIERA Link → "VIERA Link Control" (p. 56) | 73 |

Note

- Confirm if the remote control works correctly after changing the code.
- The codes may be reset to default values if batteries are replaced.
- Some operations may not be possible on some equipment models.

How to Use VIERA TOOLS

You can access some special features easily by using the VIERA TOOLS function.

1 Display icons of the feature

2 Select a feature

■ To return to TV

EXIT

or

■ Follow the operations of each feature

[VIERA Link Control]

➔ “VIERA Link Control” (p. 59)

When two or more compatible equipment are connected, a selection screen will be displayed. Please select the correct description and access.

[Photo]*

➔ “Photo mode” (p. 39)

[Video]*

➔ “Video mode” (p. 42)

[Music]*

➔ “Music mode” (p. 45)

[VIERA Connect]

➔ “VIERA Connect” (p. 16)

[Media Server]*

➔ “Using DLNA® features” (p. 52)

* When two or more available devices are connected, a selection screen will be displayed. Please select the correct description and access.

Note

- If the selected feature is not available, the demonstration to explain how to use it can be displayed. Press the OK button to view the demonstration after selecting the unavailable feature.

How to Use the Menu Functions

Various menus allow you to make settings for the picture, sound, and other functions.

1 Display the menu
 • Displays the functions that can be set (varies according to the input signal)

2 Select the menu

Picture For details → (p. 26)
 Sound For details → (p. 28)
 Timer For details → (p. 29)
 Setup For details → (p. 30)

3 Select the item

4 Adjust or select

■ **Choose from among alternatives**

■ **Adjust using the slide bar**

■ **Go to the next screen**

Displays the next screen

■ **Enter characters by free input menu**

You can enter names or numbers freely for some items.

Set characters one by one

- To delete a character → **R**
- To delete all characters → **B**
- You can set characters by using numeric buttons.

Every press changes the character by one. Leave it for a second to set the character, or press OK or any numeric button within a second. (Corresponding characters for each numeric button)

| Numeric buttons | Characters | Numeric buttons | Characters |
|-----------------|---------------------|-----------------|-------------------|
| 1 | . ! : # + - * _ () | 6 | m n o 6 M N O |
| 2 | a b c 2 A B C | 7 | p q r s 7 P Q R S |
| 3 | d e f 3 D E F | 8 | t u v 8 T U V |
| 4 | g h i 4 G H I | 9 | w x y z 9 W X Y Z |
| 5 | j k l 5 J K L | 0 | Space 0 |

■ **To return to TV at any time**

■ **To return to the previous screen**

■ **To change menu pages**

Note

- In each Viewing Mode and input, [Backlight], [Contrast], [Brightness], [Colour], [Sharpness], [Tint], [Colour Balance], [Vivid Colour], [Eco Mode], [P-NR] and [3D-COMB] can be adjusted and stored to suit your particular viewing requirement.
- Set for each input signal.

| Item | Adjustments / Configurations (alternatives) |
|---|---|
| Viewing Mode <ul style="list-style-type: none"> • Dynamic • Normal • Cinema • True Cinema • Game • Photo | Basic picture mode [Dynamic]: Provides enhanced picture contrast and sharpness when viewing in a bright room. [Normal]: Recommended for viewing under normal ambient room lighting conditions. [Cinema]: For watching movies in a darkened room with improving the performance of contrast, black and colour reproduction [True Cinema]: Precisely reproduces the original quality of the image without any revision. [Game]: Fast response signal specifically to provide suitable images for playing games <ul style="list-style-type: none"> • Not valid on TV mode • A continuous record of time spent using Game mode can be displayed in the top right of the screen. ➔ [Playing Time Display] (p. 31) [Photo]: Set [Reversal Film] to [On] to provide the suitable image quality for photos <ul style="list-style-type: none"> • For HDMI input, Media Player and Network service operations |

| Other Settings | Power Save • Off • On | Reduces brightness of picture to economise on power consumption |

- A different menu will be displayed in the mode of Media Player / Network service operations. (p. 37 - 55)
- Only available items can be selected.

Tuning and Editing Channels

You can make Auto Tuning, listing your favourite channels, skipping unwanted channels, etc.

Preparations:

1 Select TV mode

2 Display the menu

3 Select [Setup]

1 Select [Tuning Menu]

2 Select a function

• For details → (p. 33)

■ To return to TV

For Auto Tuning, using the buttons on the side panel of the TV (p. 10)

1 Press repeatedly until [Auto Tuning] appears

2 Access [Auto Tuning]

3 Start [Auto Tuning]

• To return to TV

[Channel List Edit] - Skip unwanted channels / Edit Channels (Change name, Move)

You can hide unwanted channels. The hidden channels cannot be displayed except in this function. Use this function to skip unwanted channels.

Select a channel and reveal / hide

- To reveal all channels Y
- To retune each channel (Manual Tuning) R (see below)

To edit channels

You can also edit each channel in the Channel List. Select a channel to edit and:

- To move the channel position

- To rename the channel name

Note

- If a VCR is connected only with the RF cable, edit [VCR].

[Auto Tuning] - Set all TV channels automatically

1 Start Auto Tuning

- All the previous tuning settings are erased.
- When the operation is completed, the channel at channel position [1] will be displayed.
- Search begins in the order from the lower channels to the higher channels.
- If tuning has not been done completely ➔ **[Manual Tuning]** (see below)

2 Settings are made automatically

Automatically retune all channels received in the area.

[Manual Tuning] - Set TV channel manually

Set TV channel manually after Auto Tuning.

Fine Tuning

- Use to make small adjustments to the tuning of an individual channel (affected by weather conditions, etc.)

Manual Tuning

Set TV channel manually after Auto Tuning.

- Set Sound System and Colour System, and then perform this function. Set Colour System [Auto] normally.
- If a VCR is connected only with the RF cable, select channel position [0].

1 Select a channel position

2 Select a channel

3 Search

4 Select [Store]

Child Lock

You can lock specific channels / AV input terminals and control who watches them. When the locked channel / input is selected, a message appears; by entering the PIN number, you can watch it.

Preparations:

1 Display the menu

2 Select [Setup]

1 Select [Child Lock]

■ To return to TV

EXIT

[Child Lock] - Control channel audience

1 Enter the PIN number (4 digits)

• Enter the PIN number twice at first setting.

3 Select the channel / input to be locked

| Name | Input | Type | Lock |
|-------|----------|------|------|
| 2 | TV | TV | |
| 3 | TV | TV | |
| AV1 | External | AV | |
| AV2 | External | AV | |
| AV3 | External | AV | |
| PC | External | AV | |
| HDMI1 | External | AV | |
| HDMI2 | External | AV | |

: Appears when the channel / input is locked

■ To change the PIN number

1 Select [Change PIN]

2 Enter a new PIN number twice.

2 Select [Child Lock List]

• To cancel → Select the locked channel / input

• To lock all G

• To cancel all locks Y

• To jump to the top of the next input B

• Make a note of the PIN number in Child Lock case you forget it.

Note

• Performing [Shipping Condition] (p. 36) erases the PIN number and all settings.

Input Labels

For easier identification and selection of the input mode, you can label each input mode or skip terminals that are not connected to any equipment.

- To select the input mode → (p. 22)

Preparations:

1 Display the menu

2 Select [Setup]

1 Select [Display Settings]

2 Select [Input Labels]

3 Select an input terminal and set

The labels you set will be displayed in [Input Selection] menu (p. 22) or banner.

- If [Skip] is selected, you cannot select the mode.

■ To return to TV

EXIT

■ User input

You can name each input mode freely.

1 Select [User input]

2 Set characters one by one

(maximum: ten characters)

- You can set characters by using numeric buttons. → (p. 25)

3 Store

RETURN

Shipping Condition (Reset settings)

Resets the TV to its original condition, i.e. no channels tuned in. All settings are reset (channels, picture, sound settings, etc.).

Preparations:

1 Display the menu

2 Select [Setup]

1 Select [System Menu]

2 Select [Shipping Condition]

■ To return to TV

EXIT

Shipping Condition (Reset settings)

[Shipping Condition] - Restore Settings

1 Check the message and reset

2 Follow the on screen instructions

Reset to Factory Shipping Condition Completed.
Please switch off TV.

● [Auto Tuning] will automatically start when Mains power On/Off switch is next turned on (p. 12).

■ To retune TV channels only, e.g. after moving house

➔ [Auto Tuning] in "Tuning and Editing Channels" (p. 33)

Using Media Player

Media Player allows you to enjoy photo, video or music recorded on an SD Card and a USB Flash Memory.

VIERA IMAGE VIEWER is the function of the easy viewing for photos or videos recorded on an SD Card on the TV screen by simply inserting into the SD Card slot.

Photo mode: Still pictures recorded by digital cameras will be displayed.

Video mode: Moving pictures recorded by digital video cameras will be played back.

Music mode: Digital music data will be played back.

When these functions are used, the audio signal is output from audio output terminals.

- [Date] shows the date on which the recording was made by the recording equipment. The file without record of the date is shown "****/**/**".
- The picture may not appear correctly on this TV depending on the recording equipment used.
- Display may take some time when there are many files and folders.
- Partly degraded files might be displayed at a reduced resolution.
- The folder and file names may be different depending on the digital camera or digital video camera used.

To insert or remove the SD Card / USB Flash Memory

■ USB Flash Memory

- Insert or remove straightly and completely.

■ SD Card

To insert the SD Card

Gently insert the SD Card label surface facing front.

To remove the SD Card

Push the centre of the card

- For more information of the SD Card, USB Flash Memory and supported file format → (p. 68 - 69)

Starting Media Player

1

Insert the SD Card or USB Flash Memory

➔ (p. 37)

When the SD Card is inserted, switching to Media Player will be done automatically.

2

Switch to Media Player

3

Select the icon you want to access

[One]: Playback repeats of the selected one file

Using Network Services

DLNA®

This TV is a DLNA Certified™ product.

DLNA (Digital Living Network Alliance) is a standard that makes DLNA Certified digital electronics easier and more convenient to use on a home network. To learn more, visit www.dlna.org.

It allows you to share photos, videos and music stored in a DLNA Certified media server (for example, PC with windows 7 installed (with suitable CODEC pack plug-in), DIGA Recorder etc.) connected to your home network, and enjoy them on the TV.

Supported file format ➔ (p. 68 - 69)

Media server

Ensure the connected equipment is a DLNA Certified media server.

To use a PC, install the server software on the PC for obtaining a media server.

Store photos, videos or music into the media server, and then you can watch them on the TV.

“TwonkyMedia server 6” and “Windows 7” are the server software that has been tested for the performance with this TV (current as of January, 2011).

For installing, read the manual of the server software.

- The DLNA control function of Windows 7 is not supported with this TV.
- When the server software for the media server is installed on the PC, the data may be at risk of being accessed by other people. Please take care of the settings and connections under the network circumstances at the office, hotel or even at home when not using a router.

By connecting a DLNA compatible DIGA Recorder to your home network, you can enjoy and control it as one of the media servers.

- For details, read the manual of the DIGA Recorder.

DLNA Remote Control

This TV supports the DLNA control function.

- To use this function, set the [Network Link Settings] (p. 75)

- “Windows 7” is the OS that has been tested for compatibility of this TV (current as of January, 2011).

For the operations, refer to the help functions of Windows 7.

Network connection

- ➔ “Example 1” or “Example 2” in “Network connections” (p. 48)

Network setup

- ➔ (p. 48 - 51)

DLNA operations

- ➔ (p. 52 - 55)

VIERA Connect™

VIERA Connect is a gateway to the internet services unique to Panasonic and expands VIERA CAST functions greatly.

VIERA Connect allows you to access some specific websites supported by Panasonic, and enjoy internet contents such as photos, videos, games, etc. from VIERA Connect home screen.

- This TV has no full browser function and all features of websites may not be available.

Network connection

- ➔ “Example 1” or “Example 3” in “Network connections” (p. 47)

Network setup

- ➔ (p. 48 - 51)

VIERA Connect operations

- ➔ (p. 16, 55)

Network connections

To use only DLNA features, you can operate the features without a Broadband network environment. To use VIERA Connect features, you need a Broadband network environment.

- If you do not have any Broadband network services, please consult your retailer for assistance.
- Confirm the terms and conditions of the contracts with your Internet Service Provider (ISP) or telecommunications company.
- Set up and connect any equipment required for the network environment.
- Required speed (effective): at least 1.5 Mbps for SD and 6 Mbps for HD picture quality, respectively. If the transfer speed is not enough, contents may not be played back properly.
- Read the manual of the network equipment, too.

Example 1

- Ensure to use a LAN straight cable for this connection.
- If your modem has no broadband router functions, use a broadband router.
- If your modem has broadband router functions but there are no vacant ports, use a hub.
- Ensure that the Broadband routers and hubs are compatible with 10BASE-T / 100BASE-TX.
- If you use the equipment compatible only with 100BASE-TX, category 5 LAN cables are required.

Example 2

You can connect the TV and the equipment directly to use DLNA features.

- Ensure to use a LAN cross cable for this connection.

Example 3

You can connect the TV and the telecommunication equipment directly to use VIERA Connect features.

Note

- Depending on the ISP or telecommunications company, the required equipment and the Internet connection procedure are different. Ensure that you use network equipment that is authorised by your ISP and telecommunications company.
- You cannot make settings for the network equipment on this TV. You may be required to make settings on your computer.
- Depending on the terms and conditions of the contracts with your ISP or telecommunications company, additional fees may be charged or multiple connections to the Internet may be impossible.
- Please contact your ISP or telecommunications company if you require further assistance regarding the network equipment.

[Network Setup]

- Ensure the connections are completed before starting Network Setup.
→ “Network connections” (p. 47)

■ To return to TV

EXIT

Preparations:

1 Display the menu

2 Select [Setup]

1 Select [Network Setup]

Network Link settings

Sets the link settings to control this TV from the network equipment via the network.

1 Select [Network Link Settings]

2 Select the items and set

| Item | Adjustments / Configurations (alternatives) |
|-------------------------------|---|
| VIERA Name | Sets your favourite name for this TV and this name will be used to display the name of this TV on the screen of the other DLNA compatible equipment. |
| DLNA Remote Control | Enables to control the TV using Windows 7 via the network [On] / [Off] |
| DLNA Remote Volume | Enables to control the volume of the using Windows 7 via the network [On] / [Off] |
| Network Remote Control | Enables to control the TV from the network equipment (Smartphone, etc.) [On] / [Off] <ul style="list-style-type: none"> • Depending on the area, this function may not be available. For details, consult your local Panasonic dealer. • For more information of this function, visit the following website. (English only) http://panasonic.jp/support/global/cs/tv/ |

Network settings for the LAN Cable connection

This setting is for the network connection by using the LAN cable.

1 Select [Network Type] and set to [Wired]

| | |
|-----------------------|-------------------|
| Network Setup | |
| Connection Test | |
| Network Type | Wired |
| Access Point Settings | -- |
| IP/DNS Settings | |
| Software Update | |
| MAC Address | 12-34-56-78-9a-bc |

If you make the network connection like [Example 2] (p. 47), you do not have to set [DNS Address], [Proxy] and [Proxy Port].

2 Select [IP/DNS Settings] and set the items

| | |
|-----------------------|-------------------|
| Network Setup | |
| Connection Test | |
| Network Type | Wired |
| Access Point Settings | |
| IP/DNS Settings | Access |
| Software Update | |
| MAC Address | 12-34-56-78-9a-bc |

After settings, return to [Network Setup] screen

■ [Acquire IP Address]

■ [Acquire DNS Address]

Sets [IP Address], [Subnet Mask], [Gateway] and [DNS Address].

For most users, the recommended method of connection to your network is by using [Auto] feature.

Select [Acquire IP Address] and then set to [Auto]

Select [Acquire DNS Address] and then set to [Auto]

| | |
|---------------------|---------------|
| IP/DNS Settings | |
| Acquire IP Address | Auto |
| IP Address | 192.168.11.5 |
| Subnet Mask | 255.255.255.0 |
| Gateway | 192.168.11.1 |
| Acquire DNS Address | Auto |
| DNS Address | 192.168.11.1 |
| Proxy Settings | |

• The available settings are displayed automatically.

2

■ [Proxy Settings]

Select [Proxy Settings] and set the items

| IP/DNS Settings | |
|---------------------|---------------|
| Acquire IP Address | Auto |
| IP Address | 192.168.11.5 |
| Subnet Mask | 255.255.255.0 |
| Gateway | 192.168.11.1 |
| Acquire DNS Address | Auto |
| DNS Address | 192.168.11.1 |
| Proxy Settings | Access |

After settings, return to [Network Setup] screen

RETURN

[Proxy]

Sets Proxy address.

- This is the address of the relay server that is connected to the target server instead of the browser and sends data to the browser. Setting is required if specified by the provider.

1. Select [Proxy]

| Proxy Settings | |
|----------------|---|
| Proxy | |
| Proxy Port | 0 |

2. Enter the address

Set characters one by one

| Proxy | |
|---|--|
| Host | |
| A B C D E F G H I J K L M N O P Q R S T | |
| U V W X Y Z 0 1 2 3 4 5 6 7 8 9 I F | |
| a b c d e f g h i j k l m n o p q r s t | |
| u v w x y z () * - * * | |

- You can set characters by using numeric buttons.

3. Store

RETURN

[Proxy Port]

Sets Proxy port number.

- This number is also specified by the provider with the Proxy address.

1. Select [Proxy Port]

| Proxy Settings | |
|----------------|---|
| Proxy | |
| Proxy Port | 0 |

2. Move the cursor and enter the number

3

Select [Connection Test] and access to test

| Network Setup | |
|-----------------------|-------------------|
| Connection Test | Access |
| Network Type | Wired |
| Access Point Settings | --- |
| IP/DNS Settings | |
| Software Update | |
| MAC Address | 12-34-56-78-9a-bc |

- Performs automatic testing of the network connection for the TV. (It takes a while to test.)

| Connection Test | |
|-------------------------------------|--|
| <input checked="" type="checkbox"/> | Check network cable connection. |
| <input checked="" type="checkbox"/> | Check acquired IP address. |
| <input checked="" type="checkbox"/> | Check for devices using same IP address. |
| <input checked="" type="checkbox"/> | Check gateway connection. |
| <input checked="" type="checkbox"/> | Check server connection. |

: **succeeded**

The test is successful and the TV is connected to the network.

: **failed**

Check the settings and connections, and then perform this function again.

Network settings for the Wireless LAN connection

This setting is for the network connection by using Wireless LAN Adaptor.

- Confirm the encryption key, settings and positions of your access point before starting setup. For details, read the manual of the access point.

1 Select [Network Type] and set to [Wireless]

2 Select [Access Point Settings]

3 Select the connection type and set

WPS(Push button) ➔ (p. 15)

WPS(PIN): Sets by entering the PIN code to the access point

Search for access point ➔ (p. 15)

Manual: Sets manually by entering the SSID of access point
Follow the on screen instructions

4 Select [Connection Test] and access to test

Performs automatic testing of the network connection for the TV. (It takes a while to test.)

: **succeeded**

The test is successful and the TV is connected to the network.

: **failed**

Check the settings and connections, and then perform this function again.

If you continue to have difficulty, please contact your internet service provider.

Update TV's software

Accesses the specific web site to update TV's software and search if any software updates are available.

- Follow the on screen instructions

Note

- Be sure to update the software when a software update notice is displayed on the TV screen. If the software is not updated, you will not be able to use VIERA Connect. You can update the software later manually [Software Update] in the Network Setup Menu (p. 51)
- VIERA Connect home screen is subject to change without notice.
- The services through VIERA Connect are operated by their respective service providers, and service may be discontinued either temporarily or permanently without notice. Therefore, Panasonic will make no warranty for the content or the continuity of the services.
- Some content may be inappropriate for some viewers.
- Some content may only be available for specific countries and may be presented in specific languages.
- Depending on the connection environment, the internet connection may be slow or may not be successful.
- Turn the TV off, and then on again when changing or reconnecting the network connection.

VIERA Link Functions

VIERA Link "HDAVI Control"™

Enjoy additional HDMI interoperability with Panasonic products which have "HDAVI Control" function. This TV supports "HDAVI Control 5" function.

Connections to equipment with HDMI cable such as a DIGA Recorder, HD Video Camera, Player theatre, Amplifier, etc., allow you to interface to them automatically.

These features are limited to models incorporating "HDAVI Control" and "VIERA Link".

- Some functions are not available depending on the equipment's version of HDAVI Control. Please confirm the connected equipment's version of HDAVI Control.
- VIERA Link "HDAVI Control", based on the control functions provided by HDMI which is an industry standard known as HDMI CEC (Consumer Electronics Control), is a unique function that we have developed and added. As such, its operation with other manufacturers' equipment that supports HDMI CEC cannot be guaranteed.
- Please refer to individual manuals for the external equipment. About applicable Panasonic equipment, consult your local Panasonic dealer.

Summary of features

| Connected equipment with VIERA Link function | DIGA Recorder*1 | DVD Player / Blu-ray Disc Player*1 | HD Video Camera / LUMIX Camera*1 | Player theatre*2 | Blu-ray Disc theatre*2 | Amplifier*2 |

*1: HDMI Connection only

*2: HDMI and Audio out connections

*3: available with equipment which has "HDAVI Control 2 or later" function

*4: available with equipment which has "HDAVI Control 3 or later" function

*5: available with equipment which has "HDAVI Control 4 or later" function

*6: available with DIGA Recorder which has HDD

*7: while playing a disc

*8: except for watching a disc

Connection

- To use DIGA Recorder / DVD Player / Blu-ray Disc Player / HD Video Camera / LUMIX Camera:

DIGA Recorder / DVD Player / Blu-ray Disc Player / HD Video Camera / LUMIX Camera with VIERA Link function

- To use Player theatre / Blu-ray Disc theatre:

Player theatre / Blu-ray Disc theatre with VIERA Link function

- To use Amplifier:

Amplifier with VIERA Link function

Speaker system
Speaker system
DIGA Recorder with VIERA Link function

*9: If the connected equipment has "HDAVI Control 5" function, you do not have to use this audio cable (Optical digital audio cable or RCA cable). In this case, connect the equipment to the TV's HDMI2 terminal via an HDMI cable.

Note

- For a DIGA Recorder / DVD Player / Blu-ray Disc Player / HD Video Camera / LUMIX Camera with VIERA Link function, connect to HDMI1, HDMI2 or HDMI3 terminal via an HDMI cable.
- For a Player theatre / Blu-ray Disc theatre / Amplifier, connect to HDMI1, HDMI2 or HDMI3 terminal via an HDMI cable, and also connect either the optical digital audio cable or RCA cable for audio output from the TV.
- Use fully wired HDMI compliant cable. Non-HDMI-compliant cables cannot be utilised.
A recommended Panasonic's HDMI cable part number:
 - RP-CDHS15 (1.5 m)
 - RP-CDHS30 (3.0 m)
 - RP-CDHS50 (5.0 m)

Preparations

- Connect the equipment supporting VIERA Link.
- Set up the connected equipment. Read the manual of the equipment.
- For optimal recording, the settings of the recorder may need to be changed. For details, read the manual of the recorder.
- Set [VIERA Link] [On] in the Setup Menu ➔ **[VIERA Link] (p. 31)**
- Set up the TV

➔ **After connection, turn the equipment on and then switch the TV on.**

Select the input mode to HDMI1, HDMI2, HDMI3 or HDMI4 (p. 22), and make sure that an image is displayed correctly.

This setup should be done each time when the following conditions occur:

- for the first time
- when adding or reconnecting equipment
- when changing setup

Features available

Channel download

Channel settings can be downloaded to the recorder.

Easy playback

Automatic input switching - When connected equipment is operated, the input mode is switched automatically.

[Power on link]

Set Power on Link [On] in the Setup Menu to use this function ➔ [Power on Link] (p. 31)

When the connected equipment starts playback or direct navigator / function menu for the equipment are activated, the TV is automatically turned on. (Only when the TV is in Standby mode.)

[Power off link]

Set Power off Link [On] in the Setup Menu to use this function ➔ [Power off Link] (p. 31)

When the TV is set to Standby mode, the connected equipment is also automatically set to Standby.

- This function will work even if the TV enters Standby mode automatically by auto power standby function.

[Standby Power Save] - Reduce unnecessary power consumption in standby

Set Standby Power Save [On] in the Setup Menu to use this function ➔ [Standby Power Save] (p. 31)

The power consumption in Standby mode of the connected equipment is controlled higher or lower in synchronisation with the TV On / Off state to reduce the consumption.

When the TV is set to Standby mode, the connected equipment is automatically set to Standby and the power consumption in Standby mode of the connected equipment is automatically minimised.

When the TV is turned on, the connected equipment is still in Standby mode, but the power consumption is increased to make startup time early.

- This function is effective if the connected equipment can change the power consumption in Standby mode and is set to higher consumption.
- This function will work when [Power off Link] is set to [On].

[Intelligent Auto Standby] - Auto standby for unnecessary equipment

Set Intelligent Auto Standby [On (With reminder)] or [On (No reminder)] in the Setup Menu to use this function ➔ [Intelligent Auto Standby] (p. 31)

When the TV is On, non-watched or non-used connected equipment goes into Standby mode automatically to reduce the power consumption. For example, when the input mode is switched from HDMI, when Speaker Selection is changed to [TV] (except for watching a disc).

- If you select [On (With reminder)], the on screen message will be displayed to be noticed before working this function.
- This function may not work properly depending on the connected equipment. If required, set to [Off].

Features available (Using VIERA Link Menu)

[Pause Live TV]

You can pause the live TV programme and resume later.

Live TV programmes will be recorded on HDD of the connected DIGA Recorder.

- This function is available with a DIGA Recorder which has a HDD.
- If you connect a variety of recorders including other manufacturers' recorders at the same time, please connect the DIGA Recorder which has a HDD to the TV's lower HDMI terminal number. For example, if you use HDMI1 and HDMI2 for two recorders, in this case connect DIGA Recorder which has HDD to HDMI1.
- If you cannot operate, check the settings and the equipment

➔ "Summary of features", "Connection", "Preparations" (p. 56 - 57)

Access and pause the live TV programme

1 Display [VIERA Link Menu]

2 Select [Pause Live TV] and pause

The TV picture will be paused.

| VIERA Link Menu | |
|--------------------|-------------|
| Pause Live TV | Start |
| Direct TV Rec | Start |
| VIERA Link Control | Recorder |
| Speaker Selection | Home Cinema |

- The live TV programme is recorded on HDD from where it was paused
- If the paused TV picture disappears after a few minutes,

➔ OPTION (the paused picture will be restored)

■ To operate Pause Live TV

- Operations may be different depending on the recorder. In this case, follow the operation guide or read the manual of the recorder.

■ To return to Live TV

(stop playback of Pause Live TV / cancel pause)

- If you stop playback or cancel pause, the recorded programme will be deleted from HDD.

[Direct TV Rec] - What you see is What you record

Recording the current programme in DIGA Recorder immediately.

- If you connect a variety of recorders including other manufacturers' recorders at the same time, please connect DIGA Recorder to the TV's lower HDMI terminal number. For example, if you use HDMI1 and HDMI2 for two recorders, in this case connect DIGA Recorder to HDMI1.
- If you cannot operate, check the settings and the equipment

➔ "Summary of features", "Connection", "Preparations" (p. 56 - 57)

1 Display [VIERA Link Menu]

2 Select [Direct TV Rec] and start recording

| VIERA Link Menu | |
|--------------------|-------------|
| Pause Live TV | Start |
| Direct TV Rec | Start |
| VIERA Link Control | Recorder |
| Speaker Selection | Home Cinema |

■ To stop recording

Select [Stop] in [Direct TV Rec] and stop recording

| VIERA Link Menu | |
|--------------------|-------------|
| Pause Live TV | Start |
| Direct TV Rec | Stop |
| VIERA Link Control | Recorder |
| Speaker Selection | Home Cinema |

[VIERA Link Control] - Operate the connected equipment with VIERA remote control

You can control some functions of the connected equipment with this TV remote control by pointing at the TV's signal receiver.

- If you cannot operate, check the settings and the equipment
 - ➔ **“Summary of features”, “Connection”, “Preparations” (p. 56 - 57)**
- For details of the operations for the connected equipment, read the manual of the equipment.

Access and operate the menu of the equipment

1 **Display [VIERA Link Menu]**

2 **Select [VIERA Link Control]**

3 **Select the equipment you want to access**

The type of the connected equipment is displayed. Select the type of the equipment and access.

[Recorder] / [Player] / [Home Cinema] / [Video Camera] / [LUMIX] / [Digital Camera] / [Other]

- You can also access directly by using VIERA TOOLS ➔ (p. 24)
- The displayed item may vary depending on the connected equipment.
- [Home Cinema] means Player theatre, Blu-ray Disc theatre or Recorder theatre.
- [Other] means Tuner set top box.

The menu of the accessed equipment
(Input mode will be changed automatically)

4 Operate the connected equipment

• To display the operation guide

• Store / set / access

• Move the cursor / select the menu

• Return to the previous menu

• Move the cursor / access / adjust

• Exit the menu

When the key words are displayed on colour bar R G Y B

Note

- Some operations may not be available depending on the equipment. If so, use its own remote control.

■ If multiple recorders or players are connected

■ If you access non-VIERA Link equipment

[Recorder1-3 / Player1-3]

The number is given from the TV's lower HDMI terminal number connected to the same type equipment. For example, two recorders to HDMI2 and HDMI3, in this case the recorder connected to HDMI2 is displayed as [Recorder1], and the recorder connected to HDMI3 is displayed as [Recorder2].

Type of the connected equipment is displayed.

You can access the menu of the equipment, but you cannot operate it. Use its own remote control to operate the equipment.

[Speaker Selection] - Speaker control

You can control the theatre speaker with this TV remote control by pointing at the TV's signal receiver.

• If you cannot operate, check the settings and the equipment

➔ “Summary of features”, “Connection”, “Preparations” (p. 56 - 57)

Access and control the speaker volume

1 Display [VIERA Link Menu]

2 Select [Speaker Selection]

| VIERA Link Menu | |
|--------------------|-------------|
| Pause Live TV | Start |
| Direct TV Rec | Start |
| VIERA Link Control | Recorder |
| Speaker Selection | Home Cinema |

3 Set to [Home Cinema] or [TV]

[Home Cinema]

Player theatre, Blu-ray Disc theatre or Amplifier will be automatically turned on if it is in Standby mode and the sound is from theatre speakers connected to the equipment.

• Volume up / down 

• Mute 

• The sound of TV speakers is mute.

• When the equipment is turned off, TV speakers will be active.

[TV]

TV speakers are active.

Multi-channel sound

• If you wish to enjoy the multi-channel sound (e.g. Dolby Digital 5.1ch) via an Amplifier, connect with HDMI cable and Optical digital audio cable (p. 56), and then select [Home Cinema]. If your Amplifier has “HDAVI Control 5” function, you can connect only with HDMI cable. In this case, connect your Amplifier to the TV's HDMI2 terminal.

To enjoy the sound from the DIGA Recorder in multi-channel sound, connect an HDMI cable from the DIGA Recorder to the Amplifier (p. 56).

Note

- These functions may not work properly depending on the connected equipment.
- Image or sound may not be available for the first few seconds when the Input mode is switched.
- Easy playback may be available by using the remote control for Player theatre, Blu-ray Disc theatre or Amplifier. Read the manual of the equipment.
- “HDAVI Control 5” is the newest standard (current as of December, 2010) for HDAVI Control compatible equipment. This standard is compatible with conventional HDAVI equipment.
- To confirm this TV's version of HDAVI Control ➔ [System Information] (p. 31)

External Equipment

These diagrams show our recommendations for connection of your TV to various pieces of equipment. For other connections, consult the instructions for each piece of equipment, the table below, and the specifications (p. 74).

Types of connectable equipment to each terminal

| Equipment | Terminal | | | | | |
|---|-----------------------|-----------------------|-------------------------------------|-----------------------|-----------------------|-----------------------|
| | AV1 IN | AV2 IN | AV3 IN (Side panel of the TV) | AUDIO OUT | DIGITAL AUDIO OUT | HDMI 1 - 4 |
| To play back videocassettes / DVDs (VCR / DVD Recorder) | | | | | | *1 |
| To watch DVDs (DVD Player) | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | | | <input type="radio"/> |
| To watch satellite broadcasts (Set top box) | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | | | <input type="radio"/> |
| To watch camcorder images (Video camera) | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | | | <input type="radio"/> |
| To play games (Game equipment) | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | | | <input type="radio"/> |
| To use amplifier with speaker system | | | | <input type="radio"/> | <input type="radio"/> | *2 |
| VIERA Link | | | | | | <input type="radio"/> |

| Equipment | Terminal | |
|-------------------------|-----------------------|-----------------------|
| | ETHERNET | USB 1 - 3 |
| To use Network services | <input type="radio"/> | <input type="radio"/> |

- : Recommended Connection
- *1 : Only for DVD Recorder
- *2 : Use HDMI2 for connecting an amplifier. This connection is applicable when using an amplifier that has ARC (Audio Return Channel) function.

To play back

HDMI equipment

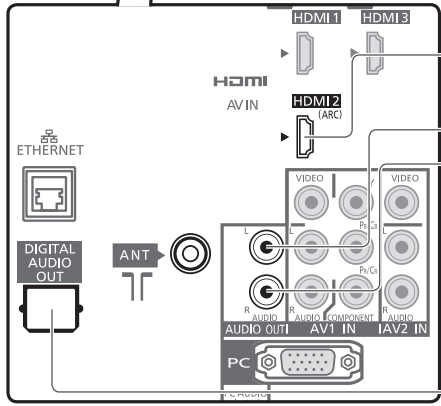

Rear of the TV

To watch DVDs

To listen with Home Theatre

*2 : If the connected equipment has "HDAVI Control 5" function, you do not have to use this audio cable (Optical digital audio cable or RCA cable). In this case, connect the equipment to the TV's HDMI2 terminal via an HDMI cable.

HDMI connection

HDMI (high-definition multimedia interface) is the world's first complete digital consumer AV interface complying with a non-compression standard.

HDMI allows you to enjoy high-definition digital images and high-quality sound by connecting the TV and the equipment.

HDMI-compatible equipment*1 with an HDMI or DVI output terminal, such as a DVD player, a set top box or game equipment, can be connected to the HDMI terminal using an HDMI compliant (fully wired) cable.

About connections, see "External Equipment" (p. 61 - 63).

Applicable HDMI features

- Input audio signal: 2ch Linear PCM (sampling frequencies - 48 kHz, 44.1 kHz, 32 kHz)
- Input video signal: 480i, 480p, 576i, 576p, 720p, 1080i and 1080p
 - ➔ "Input signal that can be displayed" (p. 66)
 - Match the output setting of the digital equipment.
- Input PC signal: ➔ "Input signal that can be displayed" (p. 66)
- Match the output setting of the PC.
- VIERA Link (HDAVI Control 5): ➔ [VIERA Link] (p. 56)
- Audio Return Channel*2 (HDMI2 terminal only)

DVI connection

If the external equipment has only a DVI output, connect to the HDMI terminal via a DVI to HDMI adaptor cable*3. When the DVI to HDMI adaptor cable is used, connect the audio cable to the audio input terminal (HDMI1 / 2 / 3 / 4: use AV2 audio terminals / HDMI4: use AV3 audio terminals).

Note

- Audio settings can be made on the [HDMI1 / 2 / 3 / 4 Input] in the Sound Menu. (p. 29)
- If the connected equipment has an aspect adjustment function, set the aspect ratio to [16:9].
- These HDMI connectors are "type A".
- These HDMI connectors are compatible with HDCP (High-Bandwidth Digital Content Protection) copyright protection.
- Equipment having no digital output terminal may be connected to the input terminal of "COMPONENT" or "VIDEO" to receive analogue signals.
- This TV incorporates HDMI™ technology.

*1: The HDMI logo is displayed on HDMI-compliant equipment.

*2: Audio Return Channel (ARC) is a function to be able to send digital sound signals via an HDMI cable.

*3: Enquire at your local digital equipment retailer shop.

PC connection

A PC may be connected to this TV so that the PC screen is displayed and sound is heard from the TV.

- PC signals that can be inputted: Horizontal scanning frequency 31 to 69 kHz; vertical scanning frequency 59 to 86 Hz (more than 1,024 signal lines could result in incorrect display of the image).
- A PC adaptor is not necessary for the DOS/V-compliant D-sub 15-pin connector.

Note

- Some PC models cannot be connected to this TV.
- When using PC, set the colour display quality of PC to the highest position.
- For details of the applicable PC signals, see p. 66.
- Max. display resolution

| Aspect | 4:3 | 1,440 × 1,080 pixels |
|--------|------|----------------------|
| | 16:9 | 1,920 × 1,080 pixels |

| Macintosh13" (640 × 480) | 35.00 | 66.67 |
| Macintosh16" (832 × 624) | 49.73 | 74.55 |
| Macintosh21" (1,152 × 870) | 68.68 | 75.06 |

PC (from HDMI terminal)

Applicable input signal for PC is basically compatible to HDMI standard timing.

| Signal name | Horizontal frequency (kHz) | Vertical frequency (Hz) |
|---------------------|----------------------------|-------------------------|
| 640 × 480 @60 Hz | 31.47 | 60.00 |
| 750 (720) / 60p | 45.00 | 60.00 |
| 1,125 (1,080) / 60p | 67.50 | 60.00 |

Note

- Signals other than above may not be displayed properly.
- The above signals are reformatted for optimal viewing on your display.
- PC signal is magnified or compressed for display, so that it may not be possible to show fine detail with sufficient clarity.

Stereo / Bilingual Sound Selection

 When you receive the stereo / bilingual sound system, sound output modes can be selected by pressing the Sound Selection button.

| Audio Signal | STEREO | MAIN I | SUB II | MONO |
|----------------|---|--------|--------|---|
| Mode Indicator |  | I | II |  |

NICAMUsed in New Zealand, Singapore, Hong Kong etc.

| Type of broadcast | Regular broadcast (Standard Audio) | Regular + NICAM MONO I (MAIN I) | NICAM STEREO | NICAM DUAL MONO (MAIN I / SUB II) |
|-------------------|--|---|---|---|
| Mode Indicator | No Indicator  | I  |  |  |

A2 (German)Used in Australia, Malaysia etc.

| Type of broadcast | Regular broadcast (Standard Audio) | BILINGUAL or DUAL MONO: MAIN I / SUB II | STEREO |
|-------------------|--|---|---|
| Mode Indicator | No Indicator  | I  |  |

- If the stereo signal is poor or the receiving conditions are not optimum or if STEREO:MONO automatic switching occurs, it is recommended you switch from STEREO to MONO.
- Even when the contents of the receiving signal undergo changes, selection mode is kept intact.
- When the receiving conditions deteriorate, listening will be easier if the mode is set to the MONO position, using the Sound Selection button.
- DUAL, also known as DUAL MONO or as BILINGUAL is not currently transmitted in some countries.

Media Player / DNLA

SD Card

Card format: SDXC Card - exFAT

SDHC Card / SD Card - FAT16 or FAT32

Compliant card type (maximum capacity): SDXC Card (64 GB), SDHC Card (32 GB), SD Card (2 GB), miniSD Card (2 GB) (requiring miniSD adaptor)

- If miniSD Card is used, insert / remove it together with the adaptor.
- Check the latest information on the card type at the following website.
(English only)
<http://panasonic.jp/support/global/cs/tv/>
- Use an SD Card which meets SD standards. If not, it may cause the TV to malfunction.
- Do not remove the card while the TV is accessing data (this can damage the card or TV).
- Do not touch the pins on the back of the card.
- Do not subject the card to high pressure or impact.
- Insert the card in the correct direction (otherwise, card may be damaged).
- Electrical interference, static electricity, or erroneous operation may damage the data or card.
- Back up the recorded data at regular intervals in case of deteriorated or damaged data or erratic operation of the TV. (Panasonic is not liable for any deterioration or damage of recorded data.)

USB Flash Memory

Format : FAT16, FAT32 or exFAT

| WMA | .wma | • Copy-protected files cannot be played back. • WMA Pro and WMA Lossless are not supported. |

Note

- The above table is generalised in nature. Due to file encoding variances, some media files that play on other devices, may not play on the TV even though they fulfill the generalised conditions.
- Do not use two-byte characters or other special codes for data.
- The card may become unusable with this TV if the file or folder names are changed.

DivX

DivX Certified® to play DivX® and DivX Plus™ HD (H.264/MKV) video up to 1080p HD including premium content.

ABOUT DIVX VIDEO:

DivX® is a digital video format created by DivX, Inc. This is an official DivX Certified® device that plays DivX video.

Visit www.divx.com for more information and software tools to convert your files into DivX video.

Subtitle text file of DivX

Subtitles format - MicroDVD, SubRip, TMLayer

- The DivX video file and subtitles text file are inside the same folder, and the file names are the same except for the file extensions.
- If there are more than one subtitles text files inside the same folder, they are displayed in the following order of priority: “.srt”, “.sub”, “.txt”.
- To confirm or change the current subtitle status while playing DivX content, press the OPTION button to display Option Menu.
- Depending on the methods used to create the file or the state of recording, only parts of the subtitles may be displayed, or the subtitles may not be displayed at all.
- Some subtitles text may not be displayed correctly.

Note

- Depending on how you make SD Card or USB Flash Memory, files and folders may not be displayed in the order you numbered.
- Depending on the software you use to create DivX files, the files may not play.
- Depending on how you create the files and the structure of folders, the files and folders may not be displayed.
- When there are many files and folders, operation may take time to complete or some files may not be displayed or playable.

ABOUT DIVX VIDEO-ON-DEMAND:

This DivX Certified® device must be registered in order to play purchased DivX Video-on-Demand (VOD) movies. To obtain your registration code, locate the DivX VOD section in your device setup menu. Go to vod.divx.com for more information on how to complete your registration.

To show DivX VOD registration code

➔ [DivX® VOD] in the Setup Menu (p. 31)

- If you want to generate the new registration code, you have to deregister the present registration code. After playing DivX VOD content once, the confirmation screen to deregister will be displayed in [DivX® VOD] in the Setup Menu. If you press the OK button on the confirmation screen, the deregistration code will be generated and you will not be able to play any contents that you purchased using the present registration code.

You will obtain the new registration code by pressing the OK button on the deregistration code screen.

- If you purchase DivX VOD content using a registration code different from this TV's code, you will not be able to play this content. ([Your device is not authorized to play this DivX protected video.] is displayed.)

Regarding DivX content that can only be played a set number of times

Some DivX VOD content can only be played a set number of times.

When you play this content, the remaining number of plays is displayed. You cannot play this content when the number of remaining plays is zero. ([This DivX rental has expired.] is displayed.)

- When playing this content, the number of remaining plays is reduced by one in the following conditions:
 - If you exit the current application.
 - If you play the other content.
 - If you go to the next or previous content.

USB connection

- It is recommended to connect the USB Flash Memory directly to the TV's USB ports.
- Some USB devices or USB HUB may not be used with this TV.
- You cannot connect any devices by using USB card reader.
- You cannot use two or more same kind of USB devices simultaneously except USB Flash Memory.

Note

- Additional information for USB devices may be on the following web site. (English only)
<http://panasonic.jp/support/global/cs/tv/>

USB Keyboard

- A USB Keyboard which requires a driver is not supported.
- Characters may not be displayed correctly on the TV screen depending on the connected keyboard or the keyboard layout setting.
- Some of the keys of USB keyboards correspond to the operation of the remote control.

| USB Keyboard | Remote Control | USB Keyboard | Remote Control |
|-------------------|-----------------|----------------------|-------------------|
| ↑ / ↓ / ← / → | Cursor buttons | F2 | VIERA TOOLS |
| Enter | OK | F3 | MENU |
| Backspace | BACK / RETURN | F4 | INPUT (AV) |

| 2 | Channel Up / Down | 8 | EXIT |
| 3 | - | 9 | INPUT (AV) |
| 4 | OK | 10 | MENU |
| 5 | BACK / RETURN | 11 | Cursor buttons |
| 6 | VIERA Connect | | |

FAQs

Before requesting service or assistance, please follow these simple guides to resolve the problem. If the problem still persists, please contact your local Panasonic dealer for assistance.

White spots or shadow images (noise)

- Check the position, direction, and connection of the aerial.

Neither image nor sound is produced

- Is the TV in "AV mode"?
- Is the mains lead plugged into the socket outlet?
- Is the TV turned On?
- Check the Picture Menu (p. 26 - 27) and volume.
- Check all required cables and connections are firmly in place.

An error message appears

- Follow the message's instructions.
- If the problem persists, contact your local Panasonic dealer.

The LCD panel moves slightly when it is pushed with a finger. Clattered sound might be heard

- There are some looseness around the panel to prevent the damage to the panel. The panel might move slightly when it is pushed with a finger, and clattered sound might be heard. This is not a malfunction.

There may be red spots, blue spots, green spots and black spots on the screen

- This is a characteristic of liquid crystal panels and is not a problem. The liquid crystal panel is built with very high precision technology giving you fine picture details. Occasionally, a few non-active pixels may appear on the screen as a fixed point of red, green, blue or black. Please note this does not affect the performance of your LCD, and it is not a quality problem.

| Problem | | Actions |
|---------|--|--|
| Screen | Chaotic image, noisy | <ul style="list-style-type: none"> • Change the setting of [P-NR] in the Picture Menu (to remove noise). ➔ (p. 26) • Check nearby electrical products (car, motorcycle, fluorescent lamp). |

Note

- Design and Specifications are subject to change without notice. Mass and Dimensions shown are approximate.

Maintenance

First, remove the mains plug from the socket outlet.

Display panel, Cabinet, Pedestal

For regular care:

Gently wipe the surface of the display panel, cabinet, or pedestal by using a soft cloth to clean the dirt or fingerprints.

For stubborn dirt:

Dampen a soft cloth with clean water or diluted neutral detergent (1 part detergent to 100 parts water). Then wring the cloth and wipe the surface. Finally, wipe away all the moisture.

Caution

- Do not use a hard cloth or rub the surface too hard. This may cause scratches on the surface.
- Take care not to subject the TV's surfaces to water or detergent. Liquid inside the TV could lead to product failure.
- Take care not to subject the surfaces to insect repellent, solvent, thinner, or other volatile substances. This may degrade surface quality or cause peeling of the paint.
- The surface of the display panel is specially treated and may be easily damaged. Take care not to tap or scratch the surface with your fingernail or other hard objects.
- Do not allow the cabinet and pedestal to make contact with a rubber or PVC substance for a long time. This may degrade surface quality.

Mains plug

Wipe the mains plug with a dry cloth at regular intervals. Moisture and dust may lead to fire or electrical shock.

Customer's Record

The model number and serial number of this product may be found on its rear panel. You should note the model number and the serial number in the space provided below and retain this book, plus your purchase receipt, as a permanent record of your purchase to aid in identification in the event of theft or loss, and for Warranty Service purposes.
