Safety Precautions

Warning

Handling the mains plug and lead

- Insert the mains plug fully into the socket outlet. If the mains plug is loose, it could generate heat and cause fire.
- Ensure that the mains plug is easily accessible.
- Ensure the earth pin on the mains plug is securely connected to prevent electrical shock.
- Do not touch the mains plug with a wet hand. This may cause electrical shock.
- Do not use any mains lead other than that provided with this TV. This may cause fire or electrical shock.
- Do not damage the mains lead. A damaged lead may cause fire or electrical shock.
 - Do not move the TV with the lead plugged in the socket outlet.
 - Do not place a heavy object on the lead or place the lead near a high-temperature object.
 - Do not twist the lead, bend it excessively, or stretch it.
 - Do not pull on the lead. Hold onto the mains plug body when disconnecting lead.
 - Do not use a damaged mains plug or socket outlet.

If you find any abnormality, remove the mains plug immediately!

**AC 220 - 240V, 50 / 60 Hz
(TH-P58V10P / TH-P65V10P:
AC 110 - 240V, 50 / 60 Hz)**

- Mains plug types vary between countries.

Power source

- This TV is designed to operate on AC 220 - 240 V, 50 / 60 Hz.
(TH-P58V10P / TH-P65V10P: AC 110 - 240 V, 50 / 60Hz)

Do not remove covers

NEVER modify the TV yourself

High-voltage components may cause serious electrical shock.

- Have the TV checked, adjusted, or repaired at your local Panasonic dealer.

Keep liquids away from the TV

- To prevent damage which may result in fire or shock hazard, do not expose this appliance to dripping or splashing.
- Do not place containers with water (flower vase, cups, cosmetics, etc.) above the TV, including on shelves above, etc.

Do not expose to direct sunlight and other sources of heat

- Avoid exposing the TV to direct sunlight and other sources of heat. To prevent fire never place any type of candle or naked flame on top or near the TV.

Do not place foreign objects inside the TV

- Do not allow any objects to drop into the TV through the air vents. Fire or electrical shock may result.

Do not place the TV on sloped or unstable surfaces

- The TV may fall off or tip over.

Use only the dedicated pedestals / mounting equipment

- Using an unapproved pedestal or other fixtures may make the TV unstable, risking injury. Be sure to ask your local Panasonic dealer to perform setup.
- Use approved pedestals / mounts (p. 8).

Do not allow children to handle SD Card

- As with a small object, SD Card can be swallowed by young children. Please remove SD Card immediately after use.

Caution

This appliance is intended for use in tropical climates

When cleaning the TV, remove the mains plug

- Cleaning an energized TV may cause electrical shock.

When the TV is not going to be used for a long period of time, remove the mains plug

- This TV will still consume some power even in the Off mode, as long as the mains plug is still connected to a live socket outlet.

Transport only in upright position

Transporting the TV with its display panel facing upward or downward may cause damage to the internal circuitry.

Allow sufficient space around the TV for radiated heat

Minimum distance

- When using the pedestal, keep the space between the bottom of the TV and the surface where the TV is set.
- In case of using Wall-hanging bracket, follow the manual of it.

Do not block the rear air vents

- Blocked ventilation by newspapers, table cloths, curtains, etc. may cause overheating, fire or electrical shock.

Do not expose your ears to excessive volume from the headphones

- Irreversible damage can be caused.

Display panel is made of glass. Do not apply strong force or impact to the display panel.

- This may cause damage resulting in injury.

The TV is heavy. Handle the TV by 2 or more people. Support as shown to avoid injury by the TV tipping or falling.

Notes

Do not display a still picture for a long time

This causes the image to remain on the plasma screen ("image retention").

This is not considered a malfunction and is not covered by the warranty.

Typical still images

- Programme number and other logos
- Image displayed in "4:3" mode
- Video game
- Computer image

To prevent image retention, contrast is lowered automatically after a few minutes if no signals are sent or no operations are performed. (p. 49)

Auto power standby function

- If no signal is received and no operation is performed for 30 minutes, the TV will automatically go to standby mode.

Keep the TV away from these types of equipment

- Electronic equipment
In particular, do not place video equipment near the TV. Electromagnetic interference may distort images / sound.
- Equipment with an infrared sensor
This TV also emits infrared rays. This may affect operation of other equipment.

Maintenance

First, remove the mains plug from the socket outlet.

Display panel

Regular care: Gently wipe the surface clean of dirt by using a soft cloth.

Major contamination: Wipe the surface clean using a soft cloth dampened with clean water or diluted neutral detergent (1 part detergent to 100 parts water). Then, using a soft dry cloth, evenly wipe the surface clean until it is dry.

Caution

- The surface of the display panel has been specially treated and may be easily damaged. Do not tap or scratch the surface with your fingernail or other hard object.
- Take care not to subject the surface to insect repellent, solvent, thinner, or other volatile substances. This may degrade surface quality.

Cabinet, Pedestal

Regular care: Wipe the surface clean using a soft dry cloth.

Major contamination: Dampen a soft cloth with clean water or water containing a small amount of neutral detergent. Then, wring the cloth and wipe the surface clean with it. Finally, wipe the surface clean with a dry cloth.

Caution

- Take care not to subject the TV's surfaces to detergent. A liquid inside the TV could lead to product failure.
- Take care not to subject surfaces to insect repellent, solvent, thinner, or other volatile substances. This may deteriorate the surface by peeling the paint.
- Do not allow the cabinet and pedestal to make contact with a rubber or PVC substance for a long time.

Mains plug

Wipe the mains plug with a dry cloth at regular intervals. Moisture and dust may lead to fire or electrical shock.

Caution

- In order to maintain the unit's performance and safety, be absolutely sure to ask your dealer or a licenced contractor to secure the wall-hanging brackets.
- Carefully read the instructions accompanying the wall-hanging bracket, and be absolutely sure to take steps to prevent the TV from falling off.
- Handle the TV carefully during installation since subjecting it to impact or other forces may cause product damage.

Installing remote's batteries

Caution

- Incorrect installation may cause battery leakage and corrosion, resulting in damage to the remote control.
- Do not mix old and new batteries.
- Do not mix different battery types (such as alkaline and manganese batteries).
- Do not use rechargeable (Ni-Cd) batteries.
- Do not burn or breakup batteries.

Batteries must not be exposed to excessive heat such as sunshine, fire or the like.

Accessories / Options

Attaching the pedestal

Warning

Do not disassemble or modify the pedestal.

- Otherwise the TV may fall over and become damaged, and personal injury may result.

Caution

Do not use any other TV and displays.

- Otherwise the TV may fall over and become damaged, and personal injury may result.

Do not use the pedestal if it becomes warped or physically damaged.

- If you use the pedestal while it is physically damaged, personal injury may result. Contact your nearest Panasonic dealer immediately.

During set-up, make sure that all screws are securely tightened.

- If insufficient care is taken to ensure screws are properly tightened during assembly, the pedestal will not be strong enough to support the TV, and it might fall over and become damaged, and personal injury may result.

Ensure that the TV does not fall over.

- If the TV is knocked or children climb onto the pedestal with the TV installed, the TV may fall over and personal injury may result.

Two or more people are required to install and remove the TV.

- If two or more people are not present, the TV may be dropped, and personal injury may result.

(TH-P65V10T)

Assembling the pedestal

Use the four assembly screws (A) to fasten the left and right poles to the base securely.

TH-P58V10M, TH-P58V10P, TH-P58V10R

- Make sure that the screws are securely tightened.
- Forcing the assembly screws the wrong way will strip the threads.
- "L" or "R" mark is stamped on the bottom of the pole.

TH-P65V10D, TH-P65V10M, TH-P65V10P, TH-P65V10R, TH-P65V10S, TH-P65V10T

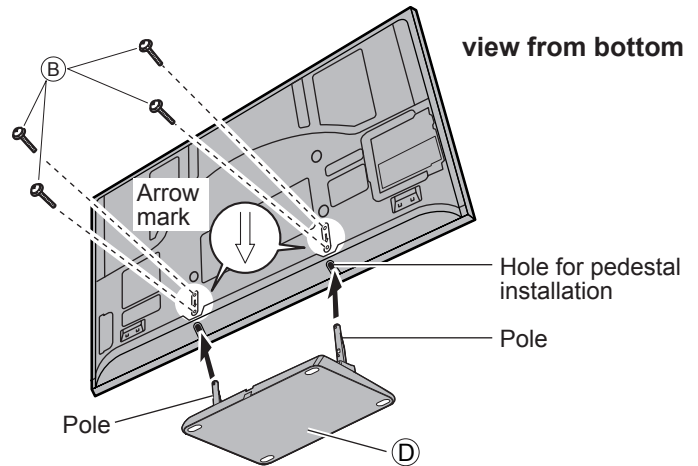

- Make sure that the screws are securely tightened using Allen wrench (E)
- Forcing the assembly screws the wrong way will strip the threads.

Securing the TV

Use the assembly screws (B) to fasten securely.

- Make sure that the screws are securely tightened.
- Carry out the work on a horizontal and level surface.

Identifying Controls

TV

Identifying Controls

Remote Control

Basic Connection

External equipment and cables shown are not supplied with this TV.
Please ensure that the TV is disconnected from the mains socket before attaching or disconnecting any leads.
When disconnecting the mains lead, be absolutely sure to disconnect the mains plug at the socket outlet first.

Connecting aerial

TV only

AC 220 - 240 V,
50 / 60 Hz
(TH-P58V10P/
TH-P65V10P:
AC 110 - 240 V,
50 / 60 Hz)

Connecting DVD Recorder / VCR

TV, DVD Recorder or VCR

AC 220 - 240 V,
50 / 60 Hz
(TH-P58V10P/
TH-P65V10P:
AC 110 - 240 V,
50 / 60 Hz)

Note

- Mains plug types vary between countries.
- Do not put the RF cable close to the mains lead to avoid noise.
- Do not place the RF cable under the TV.
- To obtain optimum quality picture and sound, an Aerial, the correct cable (75 Ω coaxial) and the correct terminating plug are required.
- If a communal Aerial system is used, you may require the correct connection cable and plug between the wall Aerial socket and the TV.
- Your local Television Service Centre or dealer may be able to assist you in obtaining the correct Aerial system for your particular area and the accessories required.
- Any matters regarding Aerial installation, upgrading of existing systems or accessories required, and the costs incurred, are the responsibility of you, the Customer.
- VIERA Link connection ➔ p. 36
- Read the manual of the equipment too.

Auto Tuning

Search and store TV channels automatically.

These steps are not necessary if the setup has been completed by your local dealer.

1 Plug the TV into mains socket and switch On

- You can now use the remote control to turn On the TV or switch the TV to standby mode. (Power LED: On)

2 Select your language

3 Select your area

- CATV/Other : Press OK → displays sub menu

*1) Refer to the table below or the display, to select your area.

Asia / W. Europe	Malaysia, Singapore, Thailand, India, Kuwait, United Arab Emirates, Saudi Arabia, Iran, etc.
CIS / E. Europe	CIS Countries, Viet Nam, etc.

4 Start Auto Tuning

- Auto Tuning will start to search for TV channels and store them. The sorted channel order depends upon the TV signal, the broadcasting system and reception conditions.

5 Select the viewing environment

- “Home” is the recommended mode for viewing at home. Select “Home” for optimal picture / power consumption. “Shop” is for in-store display. Home: “Viewing Mode” is set as “Normal”. (p. 24) Shop: “Viewing Mode” is set as “Dynamic”. (p. 24)

Auto Tuning is complete

If you select “Shop” by mistake

Return to the “Home” or “Shop” Selection menu

Select “Home”

Auto Tuning is complete

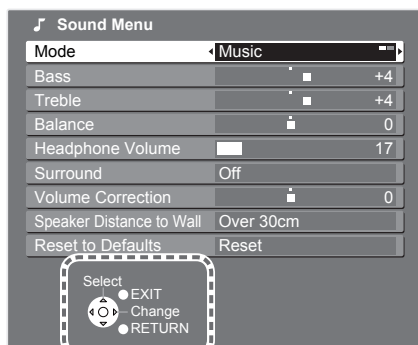

- Once you press the OK button in this menu, the TV is set to Shop mode. Please reset all settings to set to “Home” mode. → “Shipping Condition” (p. 31)

Using the On-Screen Displays

Many features available on this TV can be accessed via the On-Screen Display menu.

ON SCREEN HELP Instructions box (example: Sound Menu)

On-screen operation guide

How to use remote control

-  MENU Open the Main Menu
-  Move the cursor / select the menu
-  Move the cursor / adjust levels / select from a range of options
-  OK Access the menu / store settings after adjustments have been made or options have been set
-  RETURN Return to the previous menu
-  EXIT Exit the menu system and return to the normal viewing screen

Note

- To edit channels
 - ➔ “Editing Channels” (p. 28)
- If tuning has failed ➔ “Tuning Channels” (p. 29)
- To reset all settings ➔ “Shipping Condition” (p. 31)
- If you turned the TV Off during Standby mode last time, the TV will be in Standby mode when you turn the TV On with Mains power On / Off switch.

Menu list

Menu	Item	Adjustments / Configurations (alternatives)
Picture	Viewing Mode	Basic picture mode (Dynamic / Normal / Cinema / THX / Game) Dynamic : Provides enhanced picture contrast and sharpness when viewing in a bright room Normal : Recommended for viewing under normal ambient room lighting conditions Cinema : For watching movies in a darkened room producing a cinema-like picture THX : Faithfully reproduces the image quality that the movie makers intended in order to provide the ultimate cinematic experience at home Game : Game playing time is displayed only when connecting a game equipment. ●Set for each input signal.
	Contrast, Brightness, Colour, Sharpness	Increases or decreases the levels of these options according to your personal preference.
	Tint	With an NTSC signal source connected to the TV, the picture hue can be adjusted to suit your taste. ●For NTSC or Component / HDMI input signal reception only
	Colour Balance	Allows you to set the overall colour tone of the picture (Cool / Normal / Warm) ●Not valid when the viewing mode is set to THX
	Channel Colour Set	Colour density varying between broadcast channels can be adjusted to three levels for each reception channel. ●Select the channel you want to adjust and set this function.
	Colour Management	Automatically adjusts colours to vivid ones (Off / On) ●Not valid on PC signal
	Digital Cinema Colour	Displays the vivid images with the expanded colour gamut (Off / On / Auto) This is effective when watching HD moving pictures. ●HDMI input mode or Movie View Mode only ●Not valid when the viewing mode is set to THX
	Eco Mode	Adjusts picture settings automatically dependent on ambient lighting conditions (Off / On)
	P-NR	Picture Noise Reduction Automatically reduces unwanted picture noise and flicker noise in the contoured parts of a picture (Off / Min / Mid / Max) ●Not valid on PC signal
	3D-COMB	Occasionally, whilst viewing still or slow moving pictures, colour patterning may be seen Set to "On" to display sharper and more accurate colours. (Off / On) ●For PAL or NTSC signal reception only ●Not valid on S-Video, Component, PC, HDMI and SD Card
	Multi Window	Displays two windows at once (p. 17) ●Not valid on PC or SD Card
	Advanced Settings	Set for colour balance, view and position. (p. 32) Set for colour balance in Normal, Cinema or THX viewing mode.
Reset to Defaults	Press the OK button to reset the present Picture Menu to the default settings.	
Sound	Mode	Basic sound mode (Music / Speech) ●Set for each input signal
	Bass	Increases or decreases level to enhance or minimise lower, deeper sound output
	Treble	Increases or decreases level to enhance or minimise sharper, higher sound output
	Balance	Adjusts volume level of right and left speakers
	Headphone Volume	Adjusts the volume of the headphones
	Surround	Surround sound settings (Off / V-Audio / V-Audio Surround / V-Audio ProSurround) V-Audio: Provides a dynamic enhancer to simulate improved spatial effects V-Audio Surround: Provides a dynamic enhancer of width and depth to simulate improved spatial effects V-Audio ProSurround: Provides a more progressive enhancer and reverberation to simulate improved spatial effects. ●Switching is also possible by the Surround button on the remote control. (p. 10)
	Volume Correction	Adjusts volume of individual channel or input mode
	Speaker Distance to Wall	Adjusts the low frequency sound (Over 30cm / Up to 30cm) ●Over 30cm: Recommended when the back space between the TV and wall is over 30 cm ●Up to 30cm: Recommended when the back space between the TV and wall is within 30 cm
	MPX	Selects stereo / monaural (Mono / Stereo) (p. 45) ●Normally: Stereo ●Stereo signal cannot be received: Mono ●M1 / M2: Available while mono signal is transmitted
	HDMI1 / 4 Input	Select to fit the input signal. (Digital / Analogue) (p. 47) Digital: HDMI cable connection Analogue: HDMI-DVI adapter cable connection ●HDMI input mode only ●HDMI2 / 3 terminals are for digital signal only
	Reset to Defaults	Press the OK button to reset the present Sound Menu to the default settings.

Menu list

Menu	Item	Adjustments / Configurations (alternatives)	
Setup	Off Timer	Sets the time the TV automatically turns Off (Off / 15 / 30 / 45 / 60 / 75 / 90 minutes) (p. 15)	
	Child Lock	Locks a channel / AV input to prevent access to it (p. 27)	
	Tuning	Channel List Edit	Skips the unwanted channels / Edits channels (p. 28)
		Auto Tuning	Sets all TV channels automatically (p. 30)
		Manual Tuning	Sets the TV channels manually (p. 30)
	OSD Language	Changes language for on-screen displays (English / Thai / Chinese / Vietnamese / Arabic / Indonesia / Persian / French) (p. 14)	
	Display Settings	Teletext	Teletext display mode (TOP (FASTTEXT) / List) (p. 18)
		Teletext Character Set	Selects teletext language (English / CIS / E.Europe / Persian)
		Side Panel	Increases the brightness of the side panel (Off / Low / Mid / High) ●The recommended setting is “High” to prevent panel “image retention”.
		Input Labels	Labels or skips each input mode (p. 26)
		Banner Display Timeout	Sets how long the information banner stays on screen from 0 (No display) to 10 sec. in 1-sec. increments
		Playing Time Display	Displays the length of time in every thirty minutes for playing game (Off / On) ●When “Viewing Mode” is set to “Game”
	VIERA Link Settings	VIERA Link	Sets to use VIERA Link functions (Off / On) ●VIERA Link functions become available when “VIERA Link” is set to “On”. (p. 37)
		Power on Link	Sets to use Power on Link functions (Off / On) (p. 37)
		Power off Link	Sets to use Power off Link functions (Off / On) (p. 37)
		Standby Power Save	Controls the power consumption in Standby mode of the connected equipment to reduce the consumption (Off / On) (p. 37)
		Intelligent Auto Standby	Makes unwatched or unused connected equipment go into Standby mode to reduce the power consumption (Off / On (With reminder) / On (No reminder)) (p. 37)
	System Menu	Shipping Condition	Resets all settings to the original condition (p. 31)
		Software Licence	Displays the software licence information
		System Information	Displays the system information of this TV
	Other Settings	AV Colour System	Selects optimum colour system based on video signals in AV mode (Auto / PAL / SECAM / M.NTSC / NTSC)
		Colour Matrix	Available only with 480p or 576p input on video signals in a natural colour from digital equipment connected to AV1/AV2 component or HDMI1/HDMI2/HDMI3/HDMI4 terminals Select SD or HD to adjust suitable colour parameters for SD (standard definition) or HD (high definition) ●SD: Input signal is a normal TV system ●HD: Input signal is a high definition system
		Intelligent Frame Creation	Automatically compensates the picture frame rate to make the image smooth (Off / On) ●Set to “Off” if the image wiggles.
24p Smooth Film		Automatically compensates the picture frame rate to make the image smooth (Off / Mid / Max) ●24p signal input only ●Set to “Off” if noise is generated on the screen.	
Power Save		Reduces brightness of picture to minimise power consumption (Off / On)	
Picture Overscan		Selects the screen area for displaying the image (Off / On) On: Enlarges the image to hide the edge of the image Off: Displays the image in the original size ●Set to “On” if noise is generated on the edges of the image. ●This function is available when aspect is set to “16:9”. ●This function can be memorized separately for SD (Standard Definition) and HD (High Definition) signals.	
SD Card LED		Lights blue LED while SD Card is inserted (Off / On) (p. 33)	

- A different menu will be displayed while PC or SD Card is used. (p. 32 and p. 33)
- Only available items can be selected.

Input Labels

For easier identification and selection of the input mode, you can label each input terminals or skip terminal that is not connected to any equipment. (p. 20)

- 1 Display the menu**
 MENU
- 2 Select "Setup"**
- 3 Select "Display Settings"**
- 4 Select "Input Labels"**
- 5 Select an input terminal and set**

To return to TV →

The labels you set will be displayed in "Input Selection" menu (p. 20) or banner.

● If "Skip" is selected, you cannot select the mode.

User input
 You can name each input terminals freely.

Select "User input" →

(maximum: ten characters)
 You can set characters by using numeric buttons. → p. 22

Set characters →

Tuning Channels

Set all channels automatically **Auto Tuning**

Automatically retune all TV channels received in the area.

Start Auto Tuning Access "Auto Tuning"

Settings are made automatically

- All the previous tuning settings are erased.
- When the operation is completed, the channel at channel position "1" will be displayed.
- If tuning has not been done completely → "Manual Tuning"

For Auto Tuning, using the buttons on the side panel of the TV (p. 9)

- ① Press repeatedly until "Auto Tuning" appears **F**
- ② Access "Auto Tuning" **TV**
- ③ Start "Auto Tuning" **TV**

● To return to TV → **F**

Set manually **Manual Tuning**

Fine Tuning

Use to make small adjustments to the tuning of an individual programme (affected by weather conditions, etc.)

Manual Tuning

Set programme manually after Auto Tuning.

- Set Sound System and Colour System, and then perform this function. Normally set Colour System "Auto".
- If a VCR is connected only with the RF cable, select programme position "0".

Select the channel position

Select the channel

Search and store

Restore Settings

(Shipping Condition)

Resets the TV to its original condition, i.e. no channels tuned in. All settings (channels, picture, sound quality, etc.) are reset.

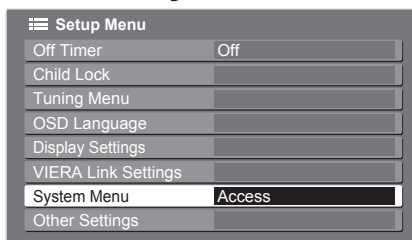

1 Display the menu

2 Select "Setup"

3 Select "System Menu"

4 Select "Shipping Condition"

VIERA Link “HDAVI Control™”

Enjoy additional HDMI interoperability with Panasonic products which have “HDAVI Control” function. This TV supports “HDAVI Control 4” function.

Connections to the equipment (DIGA Recorder, HD Video Camera, Player theatre, Amplifier, etc.) with HDMI cable allow you to interface them automatically.

These features are limited to models incorporating “HDAVI Control” and “VIERA Link”.

- Some functions are not available depending on the equipment’s version of HDAVI Control. Please confirm the connected equipment’s version of HDAVI Control.
- VIERA Link “HDAVI Control”, based on the control functions provided by HDMI which is an industry standard known as HDMI CEC (Consumer Electronics Control), is a unique function that we have developed and added. As such, its operation with other manufacturers’ equipment that supports HDMI CEC cannot be guaranteed.
- Please refer to individual manuals for the equipments. About applicable Panasonic equipment, consult your local Panasonic dealer.

*3: available with the equipment which has “HDAVI Control 2 or later” function

*4: available with the equipment which has “HDAVI Control 3 or later” function

*5: available with the equipment which has “HDAVI Control 4” function

*6: available with DIGA Recorder which has HDD

*7: while playingback a disc

*8: except for watching a disc

Connection

- To use DIGA Recorder / DVD Player / Blu-ray Disc Player / HD Video Camera / LUMIX Camera

- To use Player theatre / Blu-ray Disc theatre:

- To use Amplifier:

Note

- This function may not work properly depending on the connected equipment.
- For DIGA Recorder / DVD Player / Blu-ray Disc Player / HD Video Camera / LUMIX Camera with VIERA Link function, connect to HDMI1, HDMI2, HDMI3 or HDMI4 terminal via an HDMI cable.
- For Player theatre / Blu-ray Disc theatre / Amplifier, connect to HDMI1, HDMI2, HDMI3 or HDMI4 terminal via an HDMI cable and/or either the optical digital audio cable or RCA cable for audio output from the TV.
- Use fully wired HDMI compliant cable. Non-HDMI-compliant cables cannot be utilized.
Recommended Panasonic's HDMI cable part number:
 - RP-CDHG10 (1.0 m) • RP-CDHG15 (1.5 m) • RP-CDHG20 (2.0 m) • RP-CDHG30 (3.0 m) • RP-CDHG50 (5.0 m)

Preparations

- Connect the equipment supporting VIERA Link.
- Set up the connected equipment. Read the manual of the equipment.
- For optimal recording, the settings of the recorder might be required. For details, read the manual of the recorder.
- Set VIERA Link On in Setup Menu → "VIERA Link" (p. 25)
- Set up the TV → **After connection, turn the equipment on and then switch the TV on. Select the input mode to HDMI1, HDMI2, HDMI3 or HDMI4 (p. 20), and make sure that an image is displayed correctly.**
This setup should be done each time when the following conditions occur:
 - for the first time • when adding or reconnecting equipment • when changing setup

Features available

Channel download

Channel setting can be downloaded to the recorder.

Easy playback

Automatic input switching - When the connected equipment is operated, input mode is switched automatically.

Power on link

Set Power on Link "On" in Setup Menu to use this function → "Power on Link" (p. 25)
When the connected equipment starts playback or direct navigator / function menu for the equipment are activated, the TV is automatically turned on. (Only when the TV is in Standby mode.)

Power off link

Set Power off Link "On" in Setup Menu to use this function → "Power off Link" (p. 25)
When the TV is set to Standby mode, the connected equipment is also automatically set to Standby.

- This function will work even if the TV enters standby mode automatically by Off Timer function or auto power standby function.

Reduce unnecessary power consumption in standby **Standby Power Save**

Set Standby Power Save "On" in the Setup Menu to use this function → "Standby Power Save" (p. 25)
The power consumption in Standby mode of the connected equipment is controlled higher or lower in synchronization with the TV On / Off state to reduce the consumption.
When the TV is set to Standby mode, the connected equipment is automatically set to Standby and the power consumption in Standby mode of the connected equipment is automatically minimized.
When the TV is turned on, the connected equipment is still in Standby mode, but the power consumption is increased to make startup time early.

- This function is effective if the connected equipment can change the power consumption in Standby mode and is set to higher consumption.

Auto standby for unnecessary equipment **Intelligent Auto Standby**

Set Intelligent Auto Standby "On (With reminder)" or "On (No reminder)" in the Setup Menu to use this function → "Intelligent Auto Standby" (p. 25)
When the TV is on, the connected equipments not in use go into Standby mode automatically to reduce the power consumption.

- If you select "On (With reminder)", the on screen message will be displayed to be noticed before working this function.

VIERA Link “HDAVI Control™”

Features available (Using VIERA Link Menu)

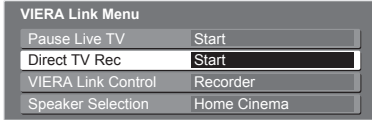

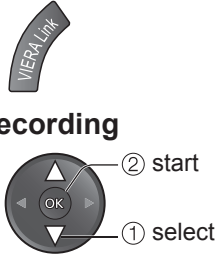

Direct TV Recording - What you see is What you record **Direct TV Rec**

Recording the current programme in DIGA Recorder immediately.

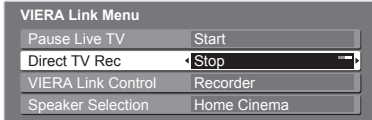

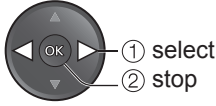

- If you connect several recorders including other manufacturers' recorders at the same time, please connect DIGA Recorder to the TV's lower HDMI terminal number.
- If you cannot operate, check the settings and the equipment → “VIERA Link features and connections” (p. 36)

① Display “VIERA Link Menu”

② Select “Direct TV Rec” and start recording

To stop recording
Select “Stop” in “Direct TV Rec” and access

Pause Live TV programme **Pause Live TV**

You can pause the live TV programme and resume later.

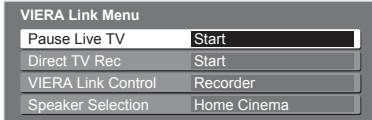

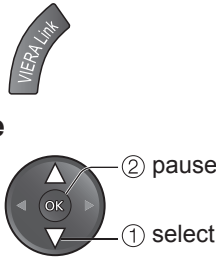

Live TV programme will be recorded on HDD of the connected DIGA Recorder.

- This function is available with DIGA Recorder which has HDD.
- If you connect several recorders including other manufacturers' recorders at the same time, please connect DIGA Recorder which has HDD to the TV's lower HDMI terminal number.
- If you cannot operate, check the settings and the equipment → “VIERA Link features and connections” (p. 36)

Access and pause the live TV programme

① Display “VIERA Link Menu”

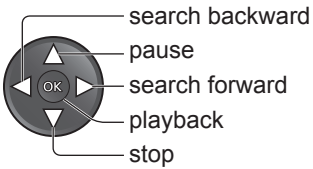

② Select “Pause Live TV” and pause

TV picture will be paused.

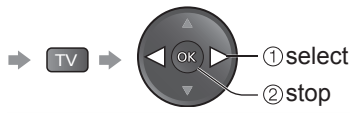

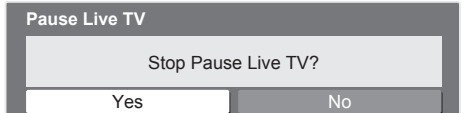

- Live TV programme is recorded on HDD from where it was paused.
- Follow the operation guide to operate Pause Live TV function.

To operate Pause Live TV

To return to Live TV
(stop playback of Pause Live TV / cancel pause)

Select “Yes”

- If you stop playback or cancel pause, the recorded programme will be deleted from HDD.

Features available (Using VIERA Link Menu)

Operate the connected equipment with VIERA remote control **VIERA Link Control**

You can control some functions of the connected equipment with this TV remote control by pointing at the TV's signal receiver.

- If you cannot operate, check the settings and the equipment → “VIERA Link features and connections” (p. 36)
- For details of the operations for the connected equipment, read the manual of the equipment.

Access and operate the menu of the equipment

① Display “VIERA Link Menu”

② Select “VIERA Link Control”

③ Select the equipment you want to access

The type of the connected equipment is displayed. Select the type of the equipment and access.

Recorder / Player / Home Cinema / Video Camera / LUMIX / Other

- “Home Cinema” means Player theatre, Blu-ray Disc theatre or Recorder theatre.
- “Other” means Tuner set top box.

The menu of the accessed equipment
(Input mode will be changed automatically)

④ Operate the connected equipment

1. Set the remote control code to “73” (p. 21)
2. Follow the operation guide

- To display the operation guide → Store / set / access →
- Move the cursor / select the menu → Return to the previous menu →
- Move the cursor / access / adjust → Exit the menu →
- When the key words are displayed on colour bar →

Note

- Some operations may not be available for some equipment. If so, use its own remote control.

If several recorders or players are connected
You can connect up to three recorders or players at the same time.

Recorder1-3 / Player1-3

The number is given from the TV's lower HDMI terminal connected to the same type of equipment. For example, when two recorders are connected to HDMI2 and HDMI3, one connected to HDMI2 is displayed as Recorder1 and the other as Recorder2.

If you access the invalid equipment
When the equipment with “HDAVI Control” function is connected

Recorder1-3 / Player1-3

Type of the connected equipment is displayed. You can access the menu of the equipment. But you cannot operate it. Use its own remote control to operate the equipment.

VIERA Link “HDAVI Control™”

Features available (Using VIERA Link Menu)

Speaker control **Speaker Selection**

You can control the theatre speaker with this TV remote control by pointing at the TV's signal receiver.

● If you cannot operate, check the settings and the equipment → “VIERA Link features and connections” (p. 36)

Access and control the speaker volume

① Display “VIERA Link Menu”

② Select “Speaker Selection”

③ Set to “Home Cinema” or “TV”

select

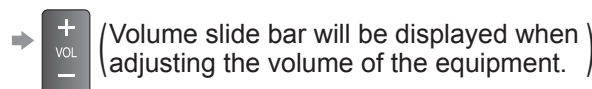

set

Home Cinema

Player theatre, Blu-ray Disc theatre or Amplifier will be automatically turned on if it is in Standby mode and the sound is from theatre speakers connected to the equipment.

● Volume up / down

● Mute →

● The sound of TV speakers is mute.

● When the equipment is turned off, TV speakers will be active.

TV

TV speakers are active.

Note

- If you wish to enjoy the multi-channel sound (e.g. Dolby Digital 5.1ch) via an Amplifier, connect with HDMI cable and Optical digital audio cable (p. 36), and then select “Home Cinema”.
To enjoy the sound from the DIGA Recorder in multi-channel sound, connect an HDMI cable from the DIGA Recorder to the Amplifier (p. 36).
- Easy playback may be available by using the remote control for Player theatre, Blu-ray Disc theatre or Amplifier. Read the manual of the equipment.

Note

- These functions may not work properly depending on the connected equipment.
- Image or sound may not be available for the first few seconds when input mode is switched.
- “HDAVI Control 4” is the newest standard (current as of December, 2008) for HDAVI Control compatible equipment. This standard is compatible with conventional HDAVI equipment.
- To confirm this TV's version of HDAVI Control → “System Information” (p. 25)

VIERA Tools

With VIERA Tools, you can directly access to some of the useful functions of connected equipment or SD card.

1 Display VIERA Tools Menu

2 Select a feature

3 Follow the operation of each feature

VIERA Link Control

VIERA Link Control (p.39)
The connected device can be operated with the VIERA remote control.
When multiple devices are connected, an indicator appears below the icon so that one device can be selected.

Pause Live TV

Pause Live TV (p. 38)
A live TV programme can be paused and resumed later.

Direct TV Rec

Direct TV Rec (p. 38)
What is on TV can be recorded immediately.

Speaker Selection

Speaker Control (p. 40)
Theatre speaker can be set.

Slideshow

SD card slideshow (p. 34)

To return to TV

External Equipment

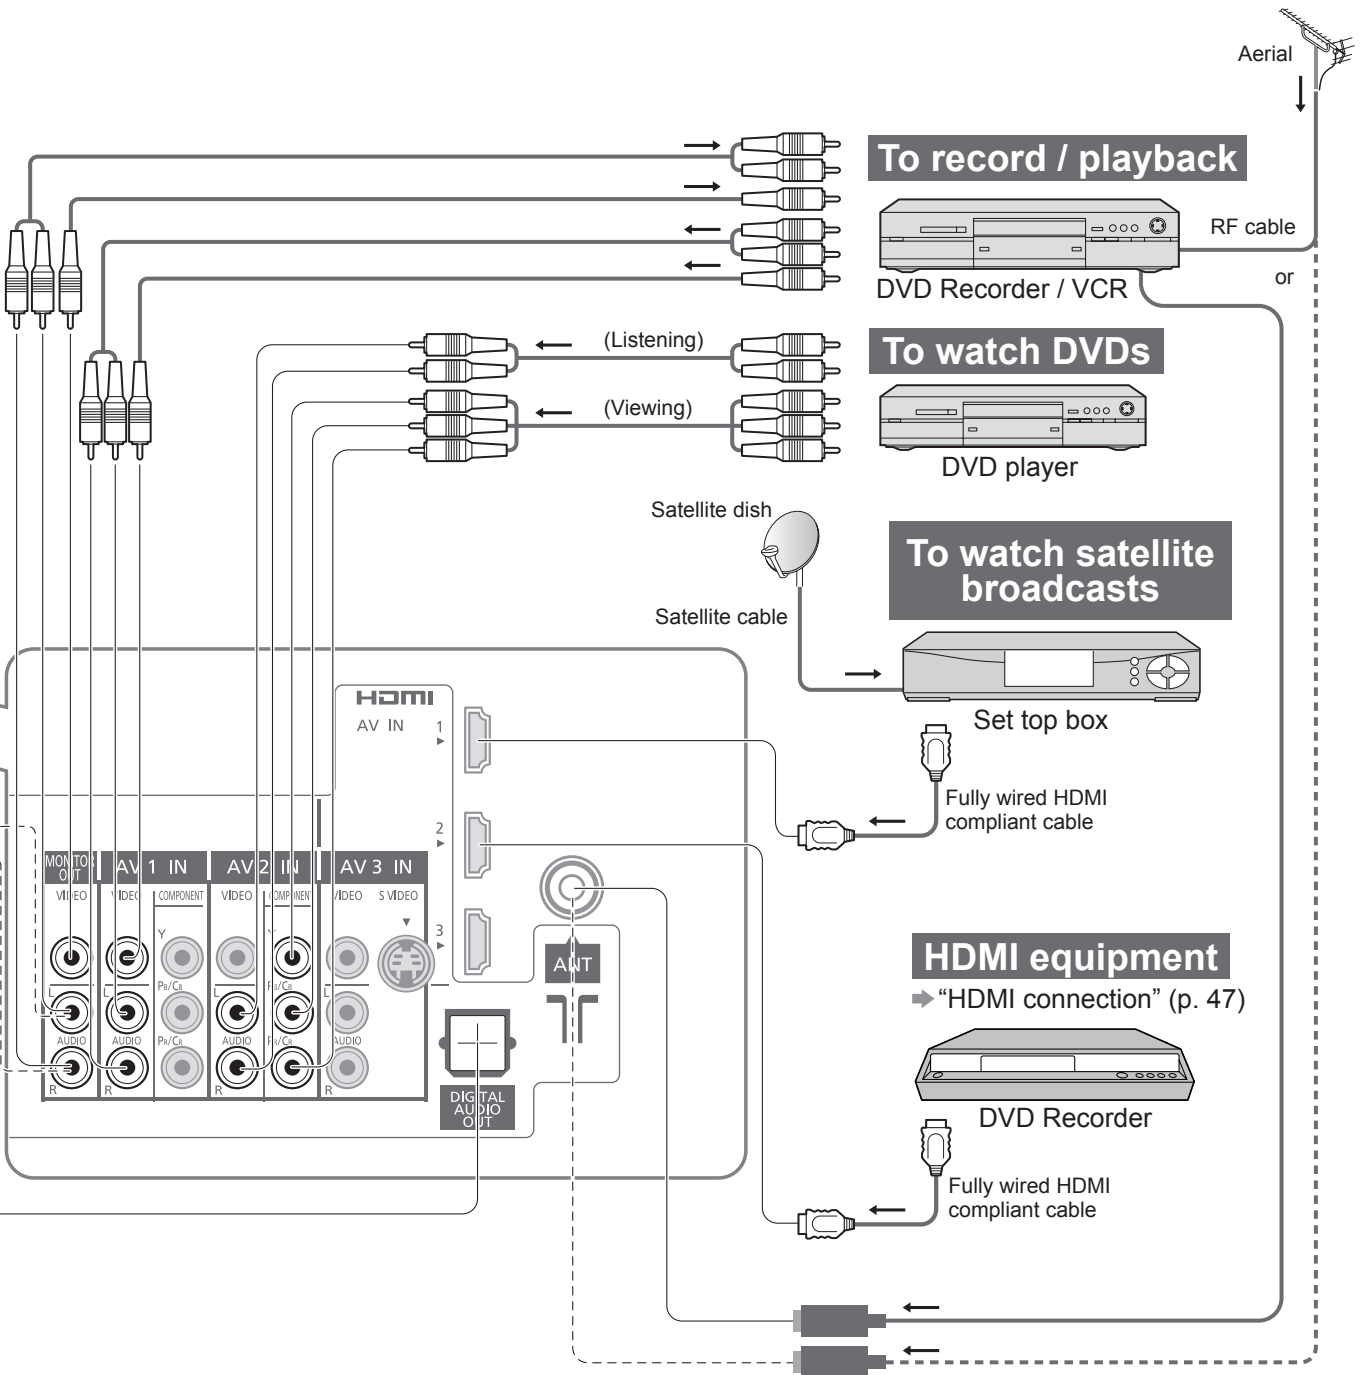

These diagrams show our recommendations for how to connect the TV to your various equipment. For other connections, consult the instructions for each piece of equipment, the table below, and the specifications (p. 51).

Types of connectable equipment to each terminal

Terminal	AV1 IN	AV2 IN	AV3 IN	AV4 IN (Side of TV)	MONITOR OUT
Recording / Playback (equipment)	VIDEO COMPONENT Y PB/CB PR	VIDEO COMPONENT Y PB/CB PR	VIDEO S VIDEO S VIDEO Y PB/CB PR	4S VIDEO Y L R	VIDEO Y PB/CB PR
To record / playback videocassettes / DVDs (VCR / DVD recorder)	○	○	○	○	○
To watch DVDs (DVD player)	○	○	○	○	
To watch camcorder images (Video camera)	○	○	○	○	
To watch satellite broadcasts (Set top box)	○	○	○	○	
To play games (Game equipment)	○	○	○	○	
To use amplifier with speaker system					○
VIERA Link					

○: Recommended Connection

	DIGITAL AUDIO OUT	HDMI			
		1	2	3	4
		○	○	○	○
		○	○	○	○
		○	○	○	○
		○	○	○	○
	○	○	○	○	○
		○	○	○	○

- Connect the S VIDEO or VIDEO terminal when using AV3 / AV4 IN terminal.
- Connect the COMPONENT or VIDEO terminal when using AV1 / AV2 IN terminal.

Stereo / Bilingual Sound Selection

 When you receive the stereo / bilingual sound system, sound output modes can be selected by pressing the **I/II** **Stereo / Bilingual Sound Selection** button.

Audio Signal	STEREO	MAIN I	SUB II	MONO
Mode Indicator		I	II	

NICAMUsed in New Zealand, Singapore, Hong Kong etc.

Type of broadcast	Regular broadcast (Standard Audio)	Regular + NICAM MONO I (MAIN I)	NICAM STEREO	NICAM DUAL MONO (MAIN I / SUB II)
Mode Indicator	No Indicator $\longleftrightarrow \nabla$	I $\longleftrightarrow \nabla$	 $\longleftrightarrow \nabla$	

A2 (German)Used in Australia, Malaysia etc.

Type of broadcast	Regular broadcast (Standard Audio)	BILINGUAL or DUAL MONO: MAIN I / SUB II	STEREO
Mode Indicator	No Indicator $\longleftrightarrow \nabla$	I \longleftrightarrow II	 $\longleftrightarrow \nabla$

- If the stereo signal is poor or the receiving conditions are not optimum or if STEREO:MONO automatic switching occurs, it is recommended you switch from STEREO to MONO.
- Even when the contents of the receiving signal undergo changes, selection mode is kept intact.
- When the receiving conditions deteriorate, listening will be easier if the mode is set to the MONO position, using the stereo / bilingual sound selection button.
- DUAL, also known as DUAL MONO or as BILINGUAL is not currently transmitted in some countries.

Technical Information

SD Card

Cautions in handling SD Card

- Do not remove the card while the TV is accessing data (this can damage card or TV).
- Do not touch the pins on the back of the card.
- Do not subject the card to a high pressure or impact.
- Insert the card in the correct direction (otherwise, card may be damaged).
- Electrical interference, static electricity, or erroneous operation may damage the data or card.
- Back up the recorded data at regular intervals in case of deteriorated or damaged data or erratic operation of the TV. (Panasonic is not liable for any deterioration or damage of recorded data.)

Data format for Card browsing

Photo : Still images recorded with digital still cameras compatible with JPEG files of DCF* and EXIF standards

Data format - Baseline JPEG (Sub-sampling 4:4:4, 4:2:2 or 4:2:0)

Max. number of files - 9,999

Image resolution - 8 × 8 to 30,719 × 17,279 pixels

Movie : SD-Video Standard Ver. 1.2 [MPEG-2 (PS format)] and AVCHD Standard compatible files with an audio format that is either MPEG-1/Layer-2 format or Dolby Digital format

(AVCHD files recorded with vertical frequency 50 Hz are applicable. A modified data with a PC may not be displayed correctly.)

- Compliant card type (maximum capacity): SDHC Card (32 GB), SD Card (2 GB) and miniSD Card (2 GB) (requiring miniSD adapter)

- If miniSD Card is used, insert / remove it together with the adapter.

- Check the latest information on the card type at the following website. (English only)

<http://panasonic.co.jp/pavc/global/cs/>

*DCF (Design rule for camera file system): Unified standard established by Japan Electronics and Information Technology Industries Association (JEITA).

Note

- Format the card with the recording equipment.
- The picture may not appear correctly on this TV depending on the recording equipment used.
- Display may take some time when there are many files and folders.
- This function cannot display Motion JPEG and still image not JPEG formatted (i.e. TIFF, BMP).
- A data modified with a PC may not be displayed.
- Images imported from a PC must be compatible with EXIF (Exchangeable Image File) 2.0, 2.1, and 2.2.
- Partly degraded files might be displayed at a reduced resolution.
- All “.JPG” extension datas in the card will be read in Photo View Mode.
- The folder and file names may be different depending on the digital camera used.
- Do not use two-byte characters or other special codes.
- The card may become unusable with this TV if the file or folder names are changed.

On screen messages

Message	Meaning / Action
Cannot read file	<ul style="list-style-type: none"> ● The file is broken or unreadable. ● The TV does not support the format. (For the applicable formats and data, see above.)
Please confirm the SD card is OK	<ul style="list-style-type: none"> ● The inserted SD card has a problem.
No SD card inserted	<ul style="list-style-type: none"> ● Insert a SD Card.
No valid file to play	<ul style="list-style-type: none"> ● The card has no data.
Over 9999 pictures found. (max. is 9999)	<ul style="list-style-type: none"> ● Maximum valid number of photos is 9,999.
This operation is not possible	<ul style="list-style-type: none"> ● Your operation is not available.

Multi Window

You can watch two images at once. (p. 17)

- The same input mode cannot be displayed at once.
- The sound is active for main screen only in multi window.
- You cannot change the aspect ratio in multi window.
- This function is not available for PC or SD card.
- Component or HDMI input is available only as the main screen.
- Some signals are reformatted for suitable viewing on your display.
- The display timeout for the input mode or programme position can be adjusted by “Banner Display Timeout” in Setup Menu (p. 25).

HDMI connection

HDMI (high-definition multimedia interface) allows you to enjoy high-definition digital images and high-quality sound by connecting the TV and the equipment.

HDMI-compatible equipment (*1) with an HDMI or DVI output terminal, such as a set top box, a DVD player or a game equipment can be connected to the HDMI terminal using an HDMI compliant (fully wired) cable.

About connections, see “External Equipment” (p. 42).

- HDMI is the world’s first complete digital consumer AV interface complying with a non-compression standard.
- If the external equipment has only a DVI output, connect to the HDMI1 terminal via a DVI to HDMI adapter cable (*2).
- When the DVI to HDMI adapter cable is used, connect the audio cable to the audio input terminal (HDMI1: use AV2 IN AUDIO terminal).
- Audio settings can be made on the “HDMI1 / 4 Input” menu screen. (p. 24)
- Applicable audio signal sampling frequencies (2ch L.PCM): 48 kHz, 44.1 kHz, 32 kHz
- HDMI2/3 terminals are for digital audio signal only.
- Use with a PC is not guaranteed. Only HDMI video formats indicated in the HDMI table (p. 48) are applicable.
- If the connected equipment has an aspect adjustment function, set the aspect ratio to “16:9”.
- These HDMI connectors are “type A”.
- These HDMI connectors are compatible with HDCP (High-Bandwidth Digital Content Protection) copyright protection.
- An equipment having no digital output terminal may be connected to the input terminal of either “COMPONENT”, “S-VIDEO”, or “VIDEO” to receive analogue signals.
- The HDMI input terminal can be used with only the following image signals: 480i, 480p, 576i, 576p, 720p, 1080i and 1080p. Match the output setting of the digital equipment.
- For details of the applicable HDMI signals, see p. 48.
 - (*1): The HDMI logo is displayed on HDMI-compliant equipment.
 - (*2): Enquire at your local digital equipment retailer shop.

PC connection

A PC may be connected to this TV so that the PC screen is displayed and sound is heard from the TV.

- PC signals that can be inputted: Horizontal scanning frequency 31 to 69 kHz; vertical scanning frequency 59 to 86 Hz (more than 1,024 signal lines could result in incorrect display of the image).
- A PC adapter is not necessary for the DOS/V-compliant D-sub 15-pin connector.

Note

- Some PC models cannot be connected to this TV.
- When using PC, set the colour display quality of PC to the highest position.
- For details of the applicable PC signals, see below.
- Max. display resolution

Aspect	4:3	1,440 × 1,080 pixels
	16:9	1,920 × 1,080 pixels

- D-sub 15-pin connector signal

Pin No.	Signal Name	Pin No.	Signal Name	Pin No.	Signal Name
①	R	⑥	GND (Ground)	⑪	NC (not connected)
②	G	⑦	GND (Ground)	⑫	NC (not connected)
③	B	⑧	GND (Ground)	⑬	HD
④	NC (not connected)	⑨	NC (not connected)	⑭	VD
⑤	GND (Ground)	⑩	GND (Ground)	⑮	NC (not connected)

Macintosh16" (832 × 624)	49.73	74.55
Macintosh21" (1,152 × 870)	68.68	75.06

Note

- Signals other than above may not be displayed properly.
- The above signals are reformatted for optimal viewing on your display.
- Applicable input signal for PC is basically compatible to VESA standard timing.
- PC signal is magnified or compressed for display, so that it may not be possible to show fine detail with sufficient clarity.

FAQs

Before requesting service or assistance, please follow these simple guides to resolve the problem. If the problem still persists, please contact your local Panasonic dealer for assistance.

White spots or shadow images (noise)

- Check the position, direction, and connection of the aerial.

Neither image nor sound is produced

- Is the TV in "AV mode"?
- Is the mains lead plugged into the socket outlet?
- Is the TV turned On?
- Check Picture Menu (p. 24) and volume.

An error message appears

- Follow the message's instructions.
- If the problem persists, contact your local Panasonic dealer.

"VIERA Link" function does not work and an error message appears

- Confirm the connection.
- Turn the connected equipment on and then switch the TV on. (p. 39)

Permanently lit spots on screen

- Due to production process involved in this technology this may result in some pixels which are permanently lit or unlit. This is not a malfunction.

Contrast is reduced

- Contrast is lowered in the following conditions without any user operation for a few minutes:
 - no signal in AV mode
 - selected locked programme
 - selected invalid programme
 - displayed menu
 - Thumbnail or still picture in SD Card mode

FAQs

	Problem	Actions
Screen	Chaotic image, noisy	<ul style="list-style-type: none"> ● Change the setting of "P-NR" in the Picture Menu (to remove noise). (p. 24) ● Check nearby electrical products (car, motorcycle, fluorescent lamp).
	No image can be displayed	<ul style="list-style-type: none"> ● Is "Colour" or "Contrast" in the Picture Menu set to the minimum? (p. 24)
	Blurry or distorted image (no sound or low volume)	<ul style="list-style-type: none"> ● Reset channel. (p. 31)
	Unusual image is displayed	<ul style="list-style-type: none"> ● Turn off the TV with Mains power On / Off switch, then turn it on again.
Sound	No sound is produced	<ul style="list-style-type: none"> ● Is "Sound Mute" active? (p. 10) ● Is the volume set to the minimum?
	Sound level is low or sound is distorted	<ul style="list-style-type: none"> ● Sound signal reception may be deteriorated. ● Set "MPX" (p. 24) in the Sound Menu to "Mono".
HDMI	Sound is unusual	<ul style="list-style-type: none"> ● Set the sound setting of the connected equipment to "2ch L.PCM". ● Check the "HDMI1 / 4 Input" setting in the Sound Menu. (p. 24) ● If digital sound connection has a problem, select analogue sound connection. (p. 36, 47)
	Pictures from external equipment are unusual when the equipment is connected via HDMI	<ul style="list-style-type: none"> ● Is the HDMI cable connected properly? (p. 47) ● Turn Off the TV and equipment, then turn them On again. ● Check an input signal from the equipment. (p. 48) ● Use an equipment compliant with EIA/CEA-861/861B.
Other	TV goes into "Standby mode"	<ul style="list-style-type: none"> ● Off Timer function is activated. ● The TV enters "Standby mode" about 30 mins. after analogue broadcasting ends.
	The remote control does not work	<ul style="list-style-type: none"> ● Are the batteries installed correctly? (p. 7) ● Has the TV been switched On?
